NO. 89

NEW YORK GIANTS WIN THEIR SECOND GAME

Boston Red Sox Defeated By Score of 5 to 2
—Nationals Secure Winning Lead in the First Inning

New York, Oct. 14.—The Giants made their last stand to-day. Before a crowd numbering 25,000 or more the National League champions struggled to check the onward march of the Boston Red Sox who with three contests captured, need only one more victory to earn them the title of world's champions of 1912.

The Giants must win three straight games to gain the championship. There was plenty of room for everyone and vacant tiers of seats in the out bleachers and lower stands before the game began. The day was cheerless and cold, gray clouds screened the sun and there was a threatening of rain in the air. Should New York win to-day, the game to-morrow will be played in Boston. To-night Managers McGraw and Stahl will toss a coin to determine where the contest will be played in the event that the Giants win the next two games.

The reputation of McGraw's men for taking an unexpected break when it looked as if they were just about down and out, was pointed to as a reason why Boston's hopes of ending the series stood a good chance of being shattered. Boston's own "come-back" of 1903, when with three games gone the team found itself and took four straight from Pittsburgh, was cited as a basis for the Giants' hopes.

The attitude of the big delegation of Boston fans here for the game was entirely different. On the basis of results accomplished they believed that this day would see the struggle ended.

"Tessy is good for another one," a Boston fan shouted, alluding to the song of the Boston rooters which they claimed was "jinxed" the Giants in the series.

Sentiments similar to those of the fans were voiced by the rival managers.

"My club has been playing far below its form," said Manager McGraw. "To win three straight or lose the series looks like a hard contest, but I will live, as the men do, that we can do it."

Manager Stahl, of the Red Sox, was naturally in a cheerful mood. "Everything appearing in our favor, and, of course, we expect to win," he said. If the Giants were to take a break to-day there was general agreement that they were due to start with the fielding end of the game. Errors they say have cost at least two of the games for the local men. Even with the poor showing which the Giants made with the stick on Saturday in Boston, it was an error that let in what proved to be the winning run. Boston's fielding has been much cleaner and more efficient. Wagner's work in cutting off hits has been particularly brilliant. The few miscues by the Boston fielders have, with the exception of two, not been costly.

Batting Order.

The batting order follows:
Boston—Hooper, r.f.; Yerkes, 2b.; Speaker, c.f.; Lewis, l.f.; Gardner, 3b.; Stahl, 1b.; Wagner, s.s.; Cady, c.; O'Brien, p.; Collins, p.

New York—Snodgrass, c.f.; Doyle, 2b.; Devore, l.f.; Murray, r.f.; Merkle, 1b.; Herzog, 3b.; Meyers, c.f.; Fletcher, s.s.; Marquard, p.

There was no more trouble about getting seats to-day than on any preceding day of the series. The early crowds were easily accommodated and latecomers found plenty of space.

THE GAME.

First Inning.

Boston—Hooper got a single over second, on which Doyle made a fine stop but could not throw the runner out at first. Hooper was caught napping at first and thrown out. The play was Marquard to Merkle to Fletcher to Merkle. Umpire Klem went behind the bat; Evans to the right field and O'Loughlin to left. Yerkes flied to Snodgrass. Speaker walked to first after having two strikes. Speaker stole second. Lewis flied out to Devore. No runs, one hit, no errors.

New York—Devore was out Gardner to Stahl. Doyle scratched an infield hit which Yerkes could not field in time. Doyle stole second. Snodgrass struck out. Murray got an infield hit. His roller was too slow for Wagner to field. Doyle went to third on the play. Doyle scored when O'Brien made a balk. Murray going to second, O'Brien made a motion to throw to first but did not throw the ball, which, under the rules, constitutes a balk. Murray scored on Merkle's double to right. Merkle scored on Herzog's double to left. The stands were in an uproar. Meyers got an infield hit, on which Wagner made a phenomenal one-handed stop, thereby holding Herzog on third. Herzog scored on a double steal on a bad throw by Yerkes to the plate. Meyers went to third and scored on a bunt hit by Fletcher. Fletcher was caught off first, O'Brien to Stahl. Five runs, six hits, one error.

Second Inning.
Boston—Gardner scratched an infield hit. The official scorer, however, gave Marquard an error on the play. Stahl singled to centre, Gardner taking second. Wagner struck out. Cady sent up a high foul to Meyers. Engel batted for O'Brien. Gardner scored and

Stahl also scored on Engel's two banger to left on which Devore got an error in playing the ball poorly off the fence. Hooper fouled out to Myers. Two runs, two hits, two errors.

New York—Collins went in the box in place of O'Brien. Marquard flied to Stahl. Devore struck out. Doyle flied to Speaker. No runs, no hits, no errors.

Third Inning.
Boston—Yerkes singled to centre. Speaker flied to Snodgrass. Lewis sent a long foul to left which Devore captured. Gardner flied to Murray. Who took the ball up against the fence. No runs, one hit, no errors.

New York—Snodgrass flied to Yerkes. Murray singled to right but was thrown out stretching his hit on a throw. Hooper to Yerkes. Merkle got an infield hit along the third base line. Merkle was out stealing. Cady to Wagner. No runs, two hits, no errors.

Fourth Inning.

Boston—Stahl scratched an infield hit toward third-base. Snodgrass took Wagner's long fly. It was a brilliant chance, and it cut off a three-base hit, and an almost home run. Cady singled to centre, Stahl taking third. Fletcher took Collins' grounder, and tossed to Doyle, catching Cady at second, completing a double by Doyle throwing out Collins at first. No runs, two hits, no errors.

New York—Herzog flied to Speaker. Meyers drove a long hit to the centre field fence for three bases. Fletcher flied to Speaker. Meyers started for home, but when he saw Speaker's perfect throw he hurried back to third. Yerkes threw out Marquard. No runs, one hit, no errors.

Fifth Inning.

Boston—Hooper flied to Murray, who made another nice catch. Murray took Yerkes' fly. Speaker flied to Herzog. No runs, no hits, no errors.

New York—Devore got a hit to centre. Doyle flied to Wagner. Snodgrass flied to Hooper, who threw to Stahl, doubling Devore. No runs, one hit, no errors.

Sixth Inning.

Boston—Lewis fouled out to Meyers. Gardner struck out. Stahl struck out. Marquard's speed was bewildering and his curves broke sharply. No runs, no hits, no errors.

New York—Murray flied to Hooper, who came in and took the ball back of Yerkes. Merkle popped to Stahl. Merkle tried to get out of the way of the ball, but it hit his bat and flew high enough for Stahl to reach it. Cady dropped Herzog's high foul. This gave Herzog a life. Herzog flied to Yerkes. No runs, no hits, one error.

Seventh Inning.

Boston—Wagner out, Marquard to Merkle. Cady drove a long fly to Snodgrass. Collins flied to Murray. No runs, no hits, no errors.

New York—Meyers out, Collins to Stahl. Fletcher flied to Speaker. Marquard flied to Speaker. No runs, no hits, no errors.

Eighth Inning.

Boston—Hooper flied to Snodgrass. Yerkes sent a single over second, which Doyle could only reach with his bare hand. Speaker flied to Murray. Lewis flied to Murray. No runs, one hit, no errors.

New York—Devore was out, Collins to Stahl. Doyle sent up a high foul to field. Snodgrass was out along, Cady to Wagner. No runs, one hit, no errors.

Ninth Inning.

Boston—Gardner flew out to Snodgrass. Stahl sent a long fly to Murray. Wagner out, Herzog to Merkle. No runs, no hits, no errors.

Final score: R. H. E.
New York..... 5 11 2
Boston..... 2 7 1
(Concluded on page 21.)

CRUSHED TO DEATH.

Man Killed By Falling Timbers at Raising Bee in Ontario Village.

Russell, Ont., Oct. 14.—During the process of a raising bee in the village here on Saturday, when the curved wooden sides of a rink which is being built by the citizens were being put in position, a windstorm came up and carried the heavy framework, with a crash to the ground. Some two dozen men who were engaged in work were crushed by the falling timbers.

John W. Low, aged 55 years, was instantly killed. Many others had miraculous escapes from serious injury. John Foster was run over by a passing horse which had become frightened by the crash, as he dashed out of the ruins of the building.

THE LATE SIR E. MOSS.

Toronto, Oct. 14.—Amid every sign of the great respect in which he was held by his fellow citizens, the remains of the late Chief Justice Moss were laid to rest this afternoon.

The lieutenant-governor, members of the cabinet, professors from the university, members of the York Law and other legal associations attended to pay their tribute of appreciation of the life and work of the late chief justice of Ontario.

MAY DIE FROM INJURIES.

Seattle, Wash., Oct. 14.—While coasting on roller skates down the Harrison street hill, Eddie Sager, eight years old, living at 165 Melrose Ave., ran into a motorcycle ridden by S. L. Mackay, a city fireman, and received injuries which may prove fatal. The impact knocked Mackay from his machine but he was uninjured. The boy's skull was fractured.

SINGULAR ACCIDENT.

Glendale, Ore., Oct. 14.—An accident stranger than fiction occurred to Lawrence Martin while he was walking in the woods near here Sunday. A bullet from a high-power rifle entered his trousers pocket within which were his knife and a box of twenty-two calibre cartridges. Several of the cartridges were exploded, the bullets tearing Martin's leg. The knife was broken in two pieces. Martin was brought here for treatment. His leg was painfully but not seriously hurt.

EIGHTY-NINE MEN ENTOMBED

IMPRISONED IN BURNING MINE IN TASMANIA

Hobart, Tasmania, Oct. 14.—Using every effort possible, hundreds of rescuers are battling against flames and smoke to save eighty-nine entombed miners at the North Mount Lyell mine. The fire started through a motor pump on one of the machines blowing out on Saturday morning. In a few minutes dense black clouds of smoke began to pour from the mouth of the main tunnel shaft, and horror-stricken surface workers dropped their tools to assist in the rescue of the 150 odd men known to be working in the mine.

Seventy-six men who were working at the 700-foot level succeeded in rushing through the smoke that, time and again threatened to suffocate them. One died on reaching the surface.

With eighty-nine miners still down in the pit, valiant efforts are being made to reach them. The heat near the main shaft is terrific. Several rescuers succeeded in reaching the 500-foot level, where one man was found dead. A diving gear is being prepared and it is hoped that by this means some of the entombed men may ultimately be rescued.

ACCIDENTALLY SHOT BY COMPANION

Rancher Succumbs to Injuries Sustained While on Hunting Trip

North Yakima, Wash., Oct. 14.—Henry R. Cole, a rancher of Sunnyside, died yesterday morning of a wound caused when he received, accidentally, a charge of birdshot from a gun carried by George Kane, of Seattle. Both men and another companion were hunting half a mile west of Sunnyside. Kane, who was in the rear, jumped over a ditch and his gun, which he carried half-cocked, was discharged, the shot striking Cole between the hip and knee, tearing both vein and artery.

NEW SAWMILL BEING BUILT AT COMOX

Plant of Canadian Western Lumber Company Will Cost \$100,000

Vancouver, Oct. 14.—The Canadian Western Lumber Company is erecting a sawmill at Comox for handling small fir and hemlock logs, which cannot be easily towed to Fraser mill, near New Westminster, owing to their liability to become waterlogged. The new plant will cost \$100,000, and will have a capacity of nearly 100,000 feet daily. Col. A. D. McKee, managing director, stated that construction of the mill is well under way. It will go into commission early in the new year.

WOMAN ENDS HER LIFE.

Seattle, Wash., Oct. 14.—Mrs. L. F. Capers, 33 years old, committed suicide on Saturday evening by inhaling gas, while her sister, Miss A. Harper, with whom she was living, was out of the house. Miss Harper, with a friend, returned about 9 o'clock and found Mrs. Capers' body in the kitchen. Coroner Snyder pronounced it a case of suicide. Mrs. Capers was separated from her husband. The couple have one child, a boy 11 years old.

UNIONIST LEADER ATTACKS PREMIER

ACCUSES MR. ASQUITH OF BREACH OF FAITH

Members of Opposition Celebrate Victories in Recent Bye-Elections

London, Oct. 14.—That Premier Asquith has broken all records in breaches of faith and has changed the meaning of the English language was the contention of Bonar Law when speaking at a banquet given to celebrate the Unionist bye-election victories.

Explaining his reference to the changing of the meaning of the English language, Mr. Law said that a political pledge in the radical minister's mouth did not now mean an obligation to fulfill such a pledge.

Mr. Lloyd George, he continued, was to use his own phrase, "a crooked sponcer" which was bringing the Liberal party good luck. Nevertheless, the sponcer had lost its charm. He was born a demagogue and was therefore sure to produce a dangerous policy and re-emphasize the shriller notes of a gospel of class hatred.

CONVICTS FIGHT WAY TO FREEDOM

OVER SCORE ESCAPE FROM WYOMING PRISON

One Killed by Deputy Sheriff—Pedestrian Shot Down by Fleeing Prisoners

Rawlins, Wyo., Oct. 14.—Armed with shotguns, rifles, revolvers, cleavers and butcher knives, a half dozen or more of the most dangerous men known to crime in the West, were said to be trapped in a canon just south of Rawlins early to-day, and a battle with a posse of a hundred men, who camped on their trail last night, was momentarily expected.

The men in hiding are among the dozen or more convicts who escaped from the state prison on Saturday after they overpowered the guards within the prison, taking their weapons and fled down the main streets, and through yards of private homes terrorizing men, women and children.

The convicts seized mounts at a livery stable and fled toward the hills before citizens could arm themselves and give chase.

The total number of prisoners to escape, it is said, at the prison, will not be known definitely until those remaining within the walls are lined up for rollcall some time to-day. Owing to the excitement in Rawlins, the total casualties are not definitely known.

Antone Pazo, a Mexican, heralded as leader of the convicts in their break for liberty, was shot to death by Deputy Sheriff Ragner, who saw the Mexican as he started on horseback for the hills after having slashed Bert Talbot, owner of the barn, across the face and head with a butcher knife.

Charles Stremsner, a barber, was shot to death while walking along the street apparently unaware that the convicts had escaped who seemed bent on murdering all who blocked their path. A negro convict was seen to flee at Stremsner.

Five of the convicts who escaped yesterday were captured last night. They were: Elliott, Fraser, Stewart, Burke and Gilmore. They had sought refuge in cellars of private homes, in box cars and outbuildings. They were unarmed, and offered but little resistance.

Desperate fighting was reported in the prison between convicts and guards, following the outbreak, but reports that several men, both guards and convicts, were killed before quiet was restored late at night are unconfirmed.

Eleven of the twenty convicts who broke from the prison Saturday afternoon, after overpowering the cellhouse keeper and seizing his keys, still are at large, and it is believed those who escaped yesterday have joined forces with their followers, who liberated themselves on Saturday.

Warden Felix Alston, who with a posse of citizens and prison guards was returning to Rawlins, after a fruitless search for the convicts who escaped Saturday, did not know of the second delivery until he reached Rawlins early to-day. He took immediate charge.

Although a company of Wyoming state militia remained under arms for some time last night, the soldiers were informed from Governor Carey's office at Cheyenne that their services would not be needed.

Governor Carey was not at his home in Cheyenne when officials at Rawlins tried to communicate with him by wire, but later he was reached by telephone, and gave his sanction to a request made by the mayor of Rawlins that he be authorized to surround the prison with armed citizens. The line was quickly established, and had a quieting effect upon the 300 or more convicts who made no attempt to escape.

Bret Dalton, member of the Whitney gang of bandits, who terrorized Wyoming for months, is said to have succeeded Antone Pazo as leader of the convicts now in the hills.

SHOT DURING FIGHT.

Rock Springs, Wyo., Oct. 14.—When he interfered with an Austrian who was creating a riot at a restaurant, Hugh Lafferty, aged 19 years, son of a prominent resident, was shot by the foreigner and instantly killed. The boy's assailant is said to have been a striker from Bingham, Utah. The Austrian resisted arrest, and was shot through the lungs by Marshal Berta. He may die.

TRAGEDY ENDS FAMILY QUARREL

WOMAN AND TWO MEN WAYLAIED AND SHOT

Vancouver, Oct. 14.—News was received here this morning of a triple murder near Nicomen. Mrs. William McLaughlin, an Indian woman married to a white man, drove into that place from De Roche with the bodies of Wm. Jasper, George McNeill (white), and Mrs. Jasper, a niece of the woman. It appears that a white man named "Si" McLaughlin, married to a niece of Mrs. Jasper, had quarrelled with the rest of the family. Yesterday he met them driving along the road from De Roche and without warning opened fire on the party with a rifle. Before he was shot McNeill returned the fire, wounding McLaughlin, but the latter managed to slay three of those in the wagon.

On receipt of the news provincial constables were sent out to apprehend McLaughlin. Late this morning it was reported he was located in a hut near Nicomen and was well provided with ammunition. It is expected he will put up a fight, as he is crazy with drink.

FIRE ON STEAMER WORK OF INCENDIARY

Vessel Engaged in Traffic on Red River Damaged to Extent of \$30,000

Winnipeg, Oct. 14.—The steamer Mount Castle, owned by E. W. Moore and engaged in traffic on the Red River and Lake Winnipeg, was badly damaged by fire Saturday night. The boat was tied up near Winnipeg, and it is believed that the fire was of incendiary origin.

The flames swept the upper deck and second deck, causing \$30,000 damage. The Mount Castle was only completed this year and had only been in service four months.

YOUNG HUNTER SHOWS REMARKABLE GRIT

Walks Nearly Mile After Arm Had Been Almost Severed by Gunshot

Seattle, Wash., Oct. 14.—"Look here, I've shot my arm off," coolly said Louis Penz, 17 years old, to Pressley Meagher, and he held his left arm, which hung almost completely severed by a gunshot wound a few inches below the elbow.

Meagher, rudely, binding the arm with his cap and handkerchief, stopped the blood and the two walked more than a mile to a farm house. A wagon was obtained and the wounded lad taken to the home of Dr. S. P. Woodin at Georgetown, and later to the county hospital, where the arm was amputated a little below the elbow.

On the way to the doctor's Penz greeted acquaintances who passed on the road. It was almost two hours from the time of the accident until the boy received medical attention.

Penz and Meagher were hunting near Oxbow when the accident occurred about noon yesterday. Penz was some distance from Meagher, and in dragging his gun across a log discharged the weapon.

ROYAL PARTY VISITS REGINA

ENTHUSIASTIC WELCOME AT SASKATCHEWAN CAPITAL

Duke of Connaught Congratulates Citizens on Their Spirit of Enterprise

Regina, Sask., Oct. 14.—Throughout the present western Canadian tour now in its seventh week, the Governor-General's party has moved on its way through weather so favorable as to give the visitors reasons to believe the climate of Western Canada is one of the pleasantest climates in the world. Day after day has been pronounced perfect, but Saturday and yesterday have shown their Royal Highnesses what really perfect prairie weather is like.

The entry of the Duke of Connaught, the Duchess and Princess Patricia into the capital of Saskatchewan Saturday afternoon was a brilliant spectacle. Flags, banners and bunting fluttered everywhere, cheering thousands thronged the streets from the railway station to the city hall, and half a dozen bands at different points along the route mingled their strains with the cheering.

The Duke wore his field marshal's uniform, which he has worn only on entering the capital of provinces and at military reviews at Vancouver and Lethbridge, and all the members of his staff were in full uniform.

Their Royal Highnesses on alighting from the train, were welcomed by Lieut.-Governor Brown, who presented the mayor and reception committee.

In reply to the civic address of welcome, which was read by City Clerk Poole, and presented by the mayor, His Royal Highness said:

"I have heard with great pleasure your expression of determination to stimulate the higher arts and am glad to know that you realize that the amassing of wealth is not everything in life, but that for the real enjoyment of prosperity, beautiful surroundings, both material and material, may be a necessity."

"I was with the deepest regret that I learned of the disaster which struck you last summer, a calamity of which the loss was miraculously small, but yet reported a very great loss to a number of your citizens."

"The history of the rapid and methodical way in which you have set to work to remedy the effects of the disaster show a spirit of courage and of buoyancy which is typical of the west."

"I know also that in this work you have acted under the leadership of one who has shown himself duly worthy of the charge placed upon him and I take this opportunity of saying to you, your worship, how much admiration was accorded you by Canada generally for the masterful and personal manner in which you exercised your authority at a most trying juncture in the history of the city."

"Regina, being the headquarters of the R. N. W. M. P., I wish to express the pleasure it has given me to renew my acquaintance with that splendid body of men with which your city is so closely identified, and to say how fully I appreciate the firm and tactful manner in which they carry out their duties throughout the province and wherever they police."

After the ceremony of formal dedication of buildings, which took place in the main entrance hall, Their Royal Highnesses went to the legislative chamber, where the general review was held. The attendance was close to fifteen hundred.

Supper was served during the evening, the royal party being entertained in the council chamber. While the reception was in progress the general brilliancy of the scene was added to by a display of fireworks in Wascana park.

With the illumination of the legislative buildings, the fireworks, and the illumination of the city in honor of the royal visitors, Regina was resplendent as never before in its history.

FARMING EXPERTS TO MEET.

Delegates Gathering at Lethbridge for Dry Farming Congress.

Lethbridge, Alta., Oct. 14.—Visitors and delegates are already beginning to arrive here for the approaching International Dry Farming Congress, which opens here Saturday next. Decorators are at work dressing the city in gala attire for the big event, which promises to totally eclipse, from an agricultural standpoint, anything hitherto attempted in Canada.

Farming experts from every part of the world will be here, and hotels and private residences will be taxed to their utmost capacity, catering to the many thousands of visitors.

MORMON TEMPLE.

Lethbridge, Alta., Oct. 14.—Much excitement prevails throughout all the Latter Day Saints colonies in Alberta province over the announcement of President Joseph F. Smith, head of the Mormon church, to the effect that a temple would be built in one of the settlements in Raymond, Alta.

The temple will be similar to those in Utah and all rites and ordinances of the church administered within its holy precincts here. It is to cost between \$100,000 and \$150,000.

MEETING OF PARLIAMENT.

Ottawa, Oct. 14.—The date on which parliament will meet will be definitely fixed to-day or to-morrow. The choice stands between November 21 and 24, with the choice in favor of the former date.

TRUTHFUL TROOPS INVADE SERBIA

GENERAL OUTBREAK REGARDED AS IMMINENT

Montenegrins Continue to Advance—Capture Another Position From Turks

London, Oct. 14.—Turkey took up today the gauntlet thrown down by the Balkan states, and events in the Near East crowded close upon one another to hasten what is believed to be the inevitable general outbreak. The Sultan's government formally declined the proffered interference in its proposed programme of reforms in Macedonia, and coincidentally assumed the offensive itself, invading Serbia. Serbia's representative at Constantinople and those of Greece and Bulgaria were notified by their governments to-day to prepare to leave on a moment's notice.

The participation of Greece in the conflict was almost assured by the Athens' government deliverance of an ultimatum demanding the release of Greek ships seized at Constantinople. More success has followed the determined advance of the Montenegrin armies under King Nicholas and Prince Danillo.

The Montenegrins lost 100 killed and wounded in their attack on the town of Byelopolje in the Sanjak of Novi-pazar, says an official report received by the Montenegrin consulate here, and the Turks who fled after the battle to Sienitza are said to have suffered heavily.

General Martinovitch's advance guard encountered a body of Turkish troops from Tarakosch, and inflicted a loss of 300 killed and wounded during the battle while the Montenegrin casualties totalled 100.

General Martinovitch burned several Turkish blockhouses, put their garrisons to flight, and then crossed the river Boyana.

The Malissori tribesmen in the neighborhood of Scutari have joined forces with the Montenegrin troops.

The Balkan situation caused a loss in console on the London exchange to-day, establishing a new low record of 72 3/4.

Another Victory.

Podgoritza, Oct. 14.—The Montenegrin troops occupied yesterday another position still closer to the town of Guslye, according to the official report of General Vutich, the commander of that division of the Montenegrin army. The Turks offered stubborn resistance, and suffered heavy losses, according to the general.

The Montenegrins also occupied two other Turkish positions commanding Guslye. During the fighting, they captured four machine guns, many rifles and a large quantity of ammunition.

The Montenegrin casualties since the outbreak of hostilities totalled up to yesterday morning 255 killed and more than 800 wounded.

One hundred and twenty Montenegrins were killed and 400 wounded in the storming of Detichit Mountains by King Nicholas' soldiers.

Turkey Replies to Powers.

Constantinople, Oct. 14.—The Turkish government declines to allow the powers to intervene in the question of Macedonian reforms. Its reply to the representatives of the powers was handed to the Austro-Hungarian ambassador here this morning. While thanking the European powers for their friendly interest in the Balkan situation, the reply says that Turkey is ready to carry out the promised reforms, but cannot tolerate any foreign interference.

Demands Release of Vessels.

Athens, Oct. 14.—The release within twenty-four hours of the Greek vessels confiscated by Turkey is to be demanded to-day by the Greek minister at Constantinople under instructions from his government.

Turks Repulsed.

Belgrade, Oct. 14.—Fighting went on throughout the day along the frontier. The reports of cannon-firing could be heard at Vranja coming from the direction of Ristovatz and Vilagoske. A dispatch from the frontier says the Servians were surprised, but succeeded in repulsing the Turkish attack.

FIVE MEN INJURED.

Chicago, Oct. 14.—An automobile, containing five men, ran at full speed early to-day against the brick wall surrounding Seward Park. The collision fractured the skulls of two of the men, broke several ribs of another and splintered the left leg of a fourth passenger. The fifth man received many cuts about the face and scalp. The men had mistaken their way and believed they were on a through street.

TAX ON ASTOR ESTATE.

Albany, N. Y., Oct. 14.—A cheque for \$3,150,000 has been received by State Comptroller Sohmer in payment of the advance inheritance tax on the estate of the late Col. John Jacob Astor, who perished on the Titanic.

MEETING OF PARLIAMENT.

Ottawa, Oct. 14.—The date on which parliament will meet will be definitely fixed to-day or to-morrow. The choice stands between November 21 and 24, with the choice in favor of the former date.

INQUEST NOT NECESSARY.

Vancouver, Oct. 14.—Coroner Jeffs has decided that it would be entirely unnecessary to hold an inquest on the human bones found Friday afternoon by chimney sweeps at 319 Vernon Drive, and which at first gave evidence that a murder had been committed. A medical student who admitted the bones were those of an Indian he had found buried at Massett is being kept in touch with by the authorities, not because of any suspicion that he may have been responsible for the man's death, but because he may be required to furnish the expense of giving the skeleton decent burial. There is a possibility that he may face legal trouble for allowing the bones to lie exposed for several weeks.

MONTHLY GRANT TO J. J. McNAMARA

LETTERS SUBMITTED IN CONSPIRACY CASE

Tracing Movement of Men Accused of Being "Advance Agents of Dynamite Crew"

Indianapolis, Ind., Oct. 14.—Visits to various cities of men accused of being "advance agents of the dynamite crew" were traced through hotel registers by witnesses at the dynamite conspiracy trial Saturday.

Referring to a bulky register, E. L. Shipp, a hotel clerk at Cincinnati, told of the arrival in Cincinnati on May 1, 1908, of Herbert S. Hockin. Hockin is charged with being one of the men who "went ahead" to arrange for explosions. On this occasion, Edward W. Clarke, who has pleaded guilty, said he was induced by Hockin to dynamite a bridge at Dayton, Ohio. The explosion occurred three days after Hockin's visit. When Clarke was locked up after his arrest on the federal indictment, Hockin, according to the government's charges, visited Clarke in jail and asked: "Are you talking?" to which Clarke replied: "No, but I understand you are."

William H. Sturmer, assistant manager of a Chicago hotel, testified that Eugene A. Clancey, San Francisco, was in Chicago October 14, 1910, two weeks after the Los Angeles Times explosion. The government contends that Clancey took part in hiding J. B. McNamara, that Clancey became "alarmed" at the loss of life at Los Angeles and that after burying to the Pacific Coast from Boston, he returned east, telegraphing on the way he would meet McNamara at Chicago.

The witness testified "G. Clarke," the alias of McNamara, was registered at the hotel when Clancey was there. Clancey also is charged with instructing labor leaders to "clean houses" after the explosion.

Miss Clara E. Smith, a stenographer, formerly employed by John J. McNamara, identified a circular letter as having been addressed to all local unions of the International Association of Bridge and Structural Iron Workers, notifying them of a temporary suspension of a detailed accounting of the union's finances.

It was said in this letter that the executive board, the attorney charged, headed by President Frank M. Ryan, in 1906 began allowing \$1,000 monthly to McNamara that he secretly might

carry on the explosions which continued until his arrest in April, 1911.

The government said the explosions against builders of viaducts, bridges and office buildings, who had declared for the "open shop" in the employment of iron workers, previously were few, but that after the regular allowance to McNamara a "paid dynamite crew," composed of Orrie E. McManigal and James B. McNamara and directed by Herbert S. Hockin, was put to work and was kept working until after the Los Angeles Times building was blown up.

Miss Smith was the first former employee of the iron workers to testify. The purpose of the circular letter, announcing that the executive board, during the fight against the "open shop" employers, had decided to suspend the rules, was handed the witness.

"Did you ever see that paper before?" asked James W. Noel, counsel for the government.

"Yes," answered Miss Smith. "It was mailed to all of the ninety-two local unions by direction of J. J. McNamara."

McNamara was secretary-treasurer of the union, whose headquarters were located in Cleveland.

Miss Smith and Mrs. A. J. Bull, also employed by McNamara as stenographer, identified letters taken from the iron workers' files after the headquarters were removed to Indianapolis. Many of the letters, which the witness testified were in McNamara's handwriting, referred to the executive board, or to E. M. Ryan. They were the letters, which the government, in its opening statement, said would show that a dynamite conspiracy was conducted through the mails, and that the defendants were "linked together in guilt."

The witness identified letters as having been received from W. Bert Brown, Kansas City, Mo.; Edward Smythe, Peoria, Ill.; Paul J. Moran, St. Louis, Mo.; Fred Mooney, Duluth, and Moulton H. Davis, Westchester, Penna., all of whom are defendants. About seven hundred letters are still to be identified. The contents will be made known when other witnesses testify.

THREE KILLED IN AUTO ACCIDENTS

Victims Meet Death When Automobiles Plunge Over Embankments

Los Angeles, Cal., Oct. 14.—Miss Ida M. Stevens, a wealthy young woman of Zanesville, Ohio, and Miss Mary Pratt, of Santa Monica, were killed and the late McIntosh, of Glendale, an automobile demonstrator, was badly injured Saturday when the electric automobile in which they were riding skidded into a deep ditch. Miss Stevens, a beginner, was driving the car.

Fatality Near Portland.

Portland, Ore., Oct. 14.—Miss Alice Holmes, aged 21, is dead, with her neck broken, her sister Bertha was seriously hurt, and George F. Brice, an attorney with whom they were taking a motor car ride, is severely bruised as the result of the overturning of their machine on the St. Helens road, two miles below Linnton. Mrs. H. B. McCabe, a sister of the Misses Holmes, was slightly bruised. Brice was attempting to avoid striking a cow which stood in the road when the accident occurred. The motor car plunged down a 40-foot embankment. Miss Holmes was instantly killed. Help was soon at hand and the injured persons were brought into Portland Saturday evening.

COST OF LIVING CONTINUES TO RISE

Bradstreet's Report Show Figures for September in U. S. Were Highest on Record

New York, Oct. 14.—Evidence that the cost of living still is rising at a more alarming pace than ever before is given in the latest compilation of the Bradstreet monthly index of prices, which includes not only food, but metals, textiles, coal, building material and a number of other things which go to make up the ordinary necessities of life.

The figures for September show that the cost of living climbed up more during that period than in any previous month. The September Index, No. 3458, is not only the highest on record, but represents a jump of 25 per cent. over the August figures. As compared with the previous high record touched on May 1 last, the advance is 19 per cent.

KILLED BY REBELS.

Twenty Mexican Soldiers and Citizens Shot by Zapatistas.

Mexico City, Oct. 14.—Twenty federal soldiers and citizens were killed by Zapatistas in an attack on Valle de Bravo, near Toluca, in the state of Mexico several days ago. Upon the arrival of General Felipe Angeles with reinforcements of federal troops the rebels fled, carrying their dead and wounded.

DEMONSTRATION AT LAWRENCE.

Lawrence, Mass., Oct. 14.—Thirty thousand American flags were carried through three miles of muddy streets Saturday by thirty thousand men, women and children in a demonstration against the Industrial Workers of the World. Hardly a building in the city was without decorations. Lining the streets through which the parade passed the spectators stood ten deep and almost without exception everyone waved the Stars and Stripes.

ITALY GIVES TURKEY THREE DAYS GRACE

Will Renew Hostilities Unless Ottoman Government Consents to Sign Protocol

Paris, Oct. 14.—Italy on Saturday granted Turkey three days grace to decide whether it shall be peace or a continuance of the war. If by Tuesday evening the Turkish government is not prepared to sign the protocol, the Italian fleet immediately will be dispatched to strike a blow at a more vital part of the Ottoman empire.

The threatened rupture of the negotiations between the Italian and Turkish representatives at Ouchy occupied the diplomats of Europe Saturday almost to the exclusion of the Balkan embargo. The Powers have concentrated their efforts to prevent Turkey from placing in the hands of the Balkan federation such a trump card as would be the failure of pour parlers that have been a large factor in causing the hesitation of Bulgaria, Greece and Servia to declare war.

It is pointed out that while Italy is still fighting the Mussulmans the position of the Balkan states is so enormously strengthened that the Powers feel nothing could restrain them. But with Turkey free from the Italian danger an entirely new perspective is created. The Greek fleet, then practically would be put out of action, and large contingents of the Greek army would be tied up guarding the coasts, while Turkey would be able without restriction to move hordes of the finest fighting men from Asia Minor against the Balkan invaders.

Italy in granting a fresh delay in the peace settlement is seconding the efforts of the powers. The Italian ambassador, Signor Tittoni, had three conferences with M. Poincaré, the French premier. Italy's desire for peace is explained on the ground that she fears complications might follow an attack by her on a port in European waters or in the vicinity of these waters.

Diplomats find it difficult to believe Turkey will maintain her demands, made at the last moment. The terms were all agreed to when the Ottoman government suddenly proposed that the clauses of value to Turkey should be immediately available, while the application of those unfavorable to Turkey should be postponed until ratified by the Ottoman government.

COMPULSORY SERVICE.

Defence Bill Passes Second Reading in New Zealand House.

London, Oct. 14.—The Wellington correspondent of the Times says the defence bill has passed the House of Representatives on its second reading. Sir Joseph Ward advised the abandonment of the provision for imprisoning defaulters but insisted that the compulsory system was absolutely necessary.

The House was practically unanimous upon the matter of compulsory service, the conscientious objectors furnishing the only discord.

REVOLUTION FAILS.

WRITES HUMBLE APOLOGY TO LAWYER

LETTER FROM EDITOR OF CALGARY EYE-OPENER

Admits He Had No Foundation for Attacks Made on E. P. Davis, K. C.

Calgary, Alta., Oct. 14.—Just about the most abject apology ever issued is one given a Vancouver lawyer, E. P. Davis, K.C., by R. G. Edwards, who publishes the Calgary Eye-Opener. It circulates all over Canada and Edwards boasts that he has never before made an apology. Mr. Davis laid a charge of criminal libel against the editor, who was committed for trial. The apology is as follows:

"E. P. Davis, Esq., K. C., Calgary: "Sir:—I beg to offer you my sincerest apology for a vile attack on you which appeared in the Calgary Eye-Opener (of which I am publisher) under date of August 3, 1912, for the publication of which I was yesterday committed for trial on a charge of criminal libel. There was not a particle of foundation in fact for that attack and I never believed there was. Neither has there been any foundation in fact for the various other attacks on you which have appeared in the same paper during the last four years. "I have never known you personally and never have had any dealings with you, and my sole motive for these attacks was that I thought you had criticized me and my paper too severely in an address you made to a jury some four years ago. "I promise not to mention your name again or to refer to you in any way, directly or indirectly, in any future number of the Calgary Eye-Opener or any other paper that may be published by me. "I authorize you to publish this apology in any way you may think fit. "Yours truly,"

"R. G. EDWARDS." The charge on which Edwards has been committed is one of criminal libel and must go to trial in spite of the above apology, unless the attorney-general of Alberta gives his consent to its withdrawal.

CONTRACT FOR WIRELESS STATIONS

Committee of Commons to Inquire Into the Agreement With Marconi Company

London, Oct. 14.—In the House of Commons the Postmaster-General, H. S. Samuel moved the appointment of a committee to investigate the circumstances of the government's agreement with the Marconi company for a chain of imperial wireless stations. Sir H. Norman, Liberal member for Blackburn, said the agreement had been criticized as bad and imprudent, but he had no sympathy with the charge that the agreement was tainted with corruption. He said he believed such an imputation was quite preposterous.

Sir Henry went on to say that none of the conditions of the contract would fulfill the resolution passed at the recent imperial conference, for the wireless stations would not be state-owned and the state would be bound hand and foot to the Marconi company.

The attorney-general, Rufus D. Isaacs, gave emphatic denial that he personally had ever had transactions with Marconi shares. Mr. Samuel said it was a relief to stand at least in the light of day to answer the allegations, attacks and accusations of maladministration and favoritism which have been made.

"On behalf of every member of the cabinet," he declared, "I say these stories that members of the cabinet, knowing that a contract was in contemplation and thinking possibly that the price of shares might rise, themselves directly or indirectly, bought any of these shares through any other party, have not one syllable of truth."

"Neither I nor any of my colleagues had a shilling's worth of the shares or have derived one penny profit from fluctuations in the price."

The House unanimously passed a resolution appointing a committee of inquiry to which the ministers concerned will submit to cross-examination. The signing of the contract that caused all the trouble, being meanwhile deferred.

MUTINEERS OVER-AWED.

General Pung Deserts His Men When Chinese Troops Reach Foo Chow.

Amoy, China, Oct. 14.—The army of over 100,000 mutinous troops commanded by General Pung has been over-awed by the arrival of a force of 5,000 government troops from Nanjing. General Pung, who had threatened to sacrifice Europeans living at Foo Chow unless his demands for a large sum of money were acceded to by the authorities, has deserted his men and has reached here on his way to Hong-kong.

New Styles In Evening Gowns For Fall

EXHIBITED EXCLUSIVELY AT "CAMPBELLS"

WE are making a special feature of a number of entirely new and especially pleasing Evening Gowns which Fashion has decreed for Fall wear. Delightful designs of inimitable gracefulness and daintiness, with most effective trimmings—models that can only be seen at Campbell's.

The leadership of Campbell's as the principal showroom for early Fall and Fall fashions must be conceded. As a matter of fact, that leadership has long since been taken for granted among the best dressed women of Victoria and among those who are Fashion's most ardent devotees. For to-day's publicity we mention just six models, as follows:

Apple Green Satin Oriental

with overdress, forming a tunic effect of the same shade in chiffon with silver-beaded edging, trimmed with hand-made chiffon roses of pink, blue and mauve, making a very dainty combination.

Frozen Iris Gown

Of rich Satin Seduisante, draped skirt effect, bordered with rich lace, with beautiful old gold roses introduced at side of skirt and waist line.

Serpent Blue Satin Oriental

With an overdress and over-skirt of purple Ninon de Soie, edged with fur and trimmed with dainty gold medallions.

Crown Duchesse Mouse-line Gown

With a coat effect of black and white lace, touches of black velvet cleverly introduced at the most effective parts.

Ivory Satin Liberty

With an overdress of Fuchsia Ninon de Soie, edged with silver fringe trimming and a very effective cluster of trimming at the waist line.

Cream Satin de Chene

With bodice part of maize ninon, covered with cream lace and a beautifully draped belt of wedgewood blue. The skirt to this model has a new side drape—a graceful model indeed.

In conclusion, never before in the history of our business, which, by the way, is the history of Ladies' Ready-to-Wear garments in Victoria, have we shown such truly magnificent gowns.

THE TRUST QUESTION.

Col. Roosevelt Says Democratic Nominees Pursued "Do Nothing" Policy.

Chicago, Oct. 14.—Colonel Roosevelt, in an address at the Coliseum here, attacked Dr. Woodrow Wilson's record as governor of New Jersey on the trust question, and declared that if the Democrats were successful in November the great trusts of the country would find Governor Wilson a most delightful and harmless companion. Colonel Roosevelt further insisted that New Jersey was above any other commonwealth the "trust state" of the country, and while it had laws which could be used with great effect against the trusts, Governor Wilson had pursued a "do nothing" policy in this respect.

SEARCH FOR SMUGGLERS.

Men Engaged in Landing Chinese Desert Their Launch.

Los Angeles, Cal., Oct. 14.—The smuggler launch Samson II, which was chased through the Golden Gate at San Francisco a few days ago by United States government vessels and which escaped through the fog in a rain of rifle bullets, was found in the outer harbor by United States immigration officers.

The launch had been abandoned and all evidence that it had been engaged in the smuggling of Chinese destroyed. Officers are securing the country in search of the crew, one of whom is supposed to have been seriously wounded in the chase at San Francisco.

Over nine million people are entitled to benefits under the Old Age Pensions Law which came into force in France last year.

FUTURE OF VICTORIA.

Last Friday night Sir Richard McBride, the second violin in the triumvirate now holding the progress of Victoria in check, was the guest of honor at a banquet tendered by the Beaver Club, an all-embracing Conservative organization in the city. For more than a week previous to this event the chief government organ dangled as a bribe before the citizens the alluring announcement that at the banquet Sir Richard intended to make an important statement respecting the future of Victoria. Nearly a thousand of the faithful, all more or less directly interested in the settlement of the Songhees Reserve, paid their good money for admittance to the banquet and came away sadder men. We doubt if many of them are wiser men.

The quality of partisan loyalty to Sir Richard McBride developed by the Beaver Club, sealed with an oath as it is, precludes the possibility of a rude awakening while the scientific treatment by artificial respiration which Sir Richard so deftly practices maintains a show of vitality. It will take several such shocks as this last to convince certain portions of the electorate that, where public interests or rights come into conflict with the schemes of Sir Richard McBride, the bite of a crocodile's teeth upon Sir Richard's bowels of compassion would leave a dent of the same size as the teeth of a suckled child upon a tenpenny nail. Sir Richard is so busy playing the role of a mediator between the Canadian Northern Railway Company and various syndicates exploiting Victoria real estate that his public trust is apparently the last thing to enter his seething mind.

It is not necessary to accuse Sir Richard of wilful and persistent prevarication respecting the disposition of the Songhees Reserve. The simple truth is that Sir Richard has little to say in the disposition of that valuable tract of Victoria realty for which the province paid nearly a million dollars, one-seventh of which was "potlatched" for "outside services." Sir Richard carefully avoided reference to the matter in his great speech last Friday night. He fixed November 1 as the date upon which he will "probably" be able to say something more definite.

When the banquet is over and the last muffled huzzas have died away like the sigh of a summer breeze, Sir Richard steals up a back alley and authorizes his chief organ to state that a portion of the reserve will be set apart for public purposes. Discovering that nobody in Victoria any longer accepts the word of the organ, Sir Richard gives an interview—one which, by the way, may or may not be authentic. The public is beginning to be suspicious of even the interviews published in the organ.

But, coming down to brass tacks, as the eloquently expressive vulgarism has it, what did Sir Richard state in his alleged interview? Absolutely nothing! There is not a line upon which the citizens can fasten which contains a single definite statement about the future of Victoria and the Songhees Reserve. There is a jumbled mass of unintelligible jargon about what ought to be done about a bridge; where it might be placed supposing that "considerable" property could be purchased; the willingness of the C. P. R. to compromise one something, "if"; and all ending with a generous tip to the city to give away the rights of the corporation in the V. & S. for a paltry \$24,000. That is all.

Let the citizens of Victoria sit back and take a square look at the situation. Let them be honest with themselves and with their fellow-men in their review of the deals engineered by Sir Richard McBride involving the city of Victoria and its legitimate future. Can they honestly say anything else than that they have been duped by one long series of vivid promises, made only to be broken, and published by the heavily subsidized organ that has, from the very start in this now historic farce,

played the ready and willing part of a public deceiver? Can anyone tell what is to be done with the Songhees Reserve? Can anyone tell what sort of railway trackage, depots and other public utilities we are to have on the property, formerly so bitterly a bone of contention between political manipulators? We think not. And when the public turn away from this disappointing and disgusting picture and ask themselves what single thing Sir Richard McBride has ever done to warrant the confidence of the people of this city or their belief that he has any interest in Victoria other than its manipulation for the enrichment of his few political friends, we think they must honestly confess that it is not in evidence.

Sir Richard got his banquet, his certificate of good character from his friends and the plaudits of his eulogistic partners, and with these he has hied himself away to the interior of the province, where he will tell every where how much he has done for Victoria and how unreservedly the people of Victoria idolize his great policies for the advancement of the country.

The Beaver Club of Victoria will have a good deal to answer for when its scores are finally tallied and the results become obvious to the public.

AN ADVANCED MARRIAGE.

We are undoubtedly living in a very advanced and radical age. Especially in the United States has the idea of the propriety, if not the necessity, of the theory of the "recall" been carried to its logical extreme. The press records the details of an unusual prenuptial agreement entered into by an advanced couple of young people after a ten-day acquaintance and terminating in a marriage contract. It was an agreement in which the old conception of "till death us do part" was abandoned and the voluntary recall of the nuptial obligations by either party was agreed to by the other in advance.

The pre-nuptial agreement is interesting in its details. Among other things it provides that the marriage shall not be a bar to other marriages should the present union prove unfruitful, that the tie shall terminate with the death of love on either side, and that neither contracting party shall have the right to restrain the other should he or she see fit to incur other parental responsibility.

The contract is, of course, the product of the exceedingly progressive age in which we live. Neither party thought of invoking the blessing which the church, from time immemorial, has bestowed upon marital unions. The young people contracting were son and daughter of more or less popular and successful authors and they are the physical, mental and moral product of the world of imaginative revelry in which some authors have their intellectual being.

The first justice engaged to perform the ceremony or legalize the contract refused when it was made known to him that such a pre-nuptial agreement had been entered upon. A second was soon found, however, who, having caught the spirit of the progressive age, accepted the responsibility as long as the ceremony was performed according to the laws of California. It will not be interesting to watch the career of these advanced products of this advanced age. It will scarcely be even pathetic.

MACDONALD BYE-ELECTION.

While the return of the Conservative candidate in the constituency of Macdonald, Manitoba, last Saturday surprised no one, it is amusing to read in the local government organ that it must be accepted as an evidence of the contentment and happiness of the West and a token of confidence in the Borden government. Had the poll resulted in the election of the independent candidate, the effect would have been to deal a body blow both to the high protection government and Hon. Robert Rogers, more especially the latter. An attempt is being made to represent that reciprocity was the sole question before the electorate, but the Tory press took great pains to keep up a campaign of continuous personal belittlement of the independent candidate, both fact and slanderous fiction being alleged against him on the hustings and in the press.

The marvellously increased majority and the increase in votes cast when compared with the federal election indicate clearly what took place. Several of the polls in the Macdonald constituency are urban and convenient to the Rogers central depot of political corruption in the city of Winnipeg. There is no doubt that the Rogers machine worked smoothly, but even if it had not the number of ballots cast and the reported majority for the Tory candidate are not to be accepted as affording any indication of the true state of the polls.

That no one was disappointed in the result may be judged from a summing up of the situation made by the Manitoba Free Press a few days before the election. That Winnipeg paper said: "Political corruption and criminal election methods are not localized in Manitoba, nor limited to the Conservative party. They are, unfortunately, incidental in some measure to all our

keenly-fought election contests. The responsibility for this state of affairs must be borne in large part by that section of the electorate who ask anxiously as each election proceeds.

"Wherefore the bribery does not begin?" But all other organizations for corrupting and manipulating voters in the whole Dominion are mere kindergartens in comparison with the deadly Manitoba machine, which strangles a constituency much as a boa-constrictor envelopes and destroys its victim. When it takes the field the decalogue and the criminal code cease to run in the province of Manitoba.

"And everybody knows this to be true." As to the statement that "the voice of Macdonald is the voice of the West," it must be remembered that only a few months ago the Toronto News coined the phrase, "the voice of Saskatchewan is the voice of the West." We should like to ask our esteemed morning contemporary to explain how it is that circumstances alter these cases.

Nanaimo Free Press says: "Conservatives should rally in large numbers at the annual meeting to-morrow night at the Foresters' hall." Time to get ready for a federal election, eh?

The Republican state convention at Saratoga, N. Y., was opened with prayer offered by one of the delegates. It is said to be "the first unbossed political convention in New York state in twenty years." It has been the common practice of persons in extreme peril to supplicate the Almighty as a last resort. Can the practice be said to have begun also with political parties?

The Toronto Telegram says: "Canada's alleged leaders are puppet kings masquerading as the rulers of a country which has the real sources of its sovereignty in the throne-room of the Bankers' Association or the head office of the C. P. R. It has been settled as well as anything can be settled that the name Liberal and the name Conservative means absolutely nothing to Canada's real rulers." Seeing that the Liberals are out of power and the Conservatives in it is a pretty hard crack at the Borden government.

Dr. Giddings, professor at Columbia University, thinks that there is a race war coming in the United States which will appal civilization. There are twelve million colored people in the United States, and with better education and extended privileges the negro must inevitably claim a place alongside the white man as his equal. If the negro should be able to back up his claim on the strength of educational and economic equality, "then we may prepare to witness a race conflict compared to which the present situation is a love feast."

It has been held in a libel suit at Ottawa that the business of private life record of a candidate for public office is a proper subject for public discussion. The defendant in the case at a meeting of ratepayers had condemned the plaintiff's candidature and advanced as reason certain incidents in his business record. This was made the ground of action. Mr. Justice Sutherland, who presided at the trial, held that the statements made were under the circumstances to be considered as privileged, the meeting having been called for the purpose of discussing municipal matters and promoting the good government of the city. His Lordship added that it would be a bad thing to curtail freedom of speech in such a connection.

REBUKED.

At a luncheon given by the directors of the Ottawa exhibition to the live stock men recently, a young man from British Columbia made a lengthy speech on the greatness of his province, and referred to it as the best part of Canada.

Prof. Cumming, deputy minister of agriculture for Nova Scotia, said that he, too, came from the best part of Canada, which was Nova Scotia.

Every speaker who followed made more reference to having come from the best part of Canada than he did to the subject of the luncheon—live stock.

Mr. D. O. Bull, of the firm of R. H. Bull & Sons, Brampton, Ont., the Jersey cattle breeder, said that the speeches reminded him of a dinner he was at in Jacksonville, Florida. The city, like Ottawa, was suffering from a lack of good water, but that wasn't the subject under discussion.

Every man on the feast, list told of the greatness of Jacksonville until a visitor from Miami, a neighboring city, was called upon.

He said: "I understand that you have had some trouble in getting good water. Now, we have a lake near Miami whose water is pure and sparkling. We have no objection to your laying a pipe line to that lake; though it is some little distance, and if you people of Jacksonville are as good suckers as you are blowers you can easily overcome your difficulties."

TOUGH LUCK.

There may be better stories about children than the following, but we haven't run across them lately:

A little boy in the country had eaten very freely of raw turnips. When he left the field he was pretty much in the state of the boy at the Sunday school picnic who said, "I couldn't swallow any more, but I might chew a little."

The boy who fed, so fully on turnips, straggled down the road with a couple of companions.

Presently the back-board of a wagon worked loose, and beautiful apples tumbled out on the road.

Gazing thoughtfully at the splendid fruit, the youngster said, "Well, just look at that!—and me full of turnips!"

NOT KNOCKING DECEASED.

A gravestone in Maine, described in Everybody's, bears this inscription:

"Here lies the body of Enoch Holden, who died suddenly and unexpectedly by being kicked to death by a cow. Well done, good and faithful servant."

For your kitchen range, try a ton of our

NUT COAL

This fuel is every bit as good as the lump coal that you are using. It is much easier to handle than the lump, and gives a bright, clean and economical fire. Let your next order be for Nut.

LOCAL NEWS

St. John's Branch W. A.—St. John's branch of the Women's Auxiliary will meet in the Guild room Tuesday afternoon, 2.30 p. m. A good attendance is requested.

Sons of England.—Alexandra Lodge, S. O. E. B. S., will give a smoking concert on Wednesday evening commencing at 8 p. m., to which a cordial invitation is extended to all members of the society.

To Meet in Committee.—A committee meeting of members of the Oak Bay council is to be held this evening, when several vital matters are to be discussed. In all probability one of the questions to be brought up will be the sending of a delegate to the municipal convention at Revelstoke to-morrow week.

Movements of Archbishop Bruchesi.—Archbishop Bruchesi, officiated at Pontifical high mass at St. Andrew's cathedral this morning, and also took part in a service at St. Ann's convent chapel. On Saturday he paid a visit to St. Ann's kindergarten, View street, accompanied by his secretary, Rev. Father Pepin.

Eastern Swimming Expert Coming.—An entry was received this morning for the Canadian swimming championships, to be held next Saturday, from an eastern swimmer, crack in the person of A. S. Macdonald, of Winnipeg, the 100-yard champion of Manitoba. Macdonald has entered for the 50 yards and 200 yards races and in all probability his coming will stimulate even greater interest in the events named among the local experts.

E. & N. Matters.—E. E. Reauley, general superintendent of the E. & N. Railway, reported this morning that the new extension to McBride Junction was making excellent progress, all things considered. The company is still working hard at clearing the right-of-way on the Cowichan Lake extension. The last, he says, is a very difficult operation, as hundreds of trees have to be felled and the logging operations involved are of a most extensive nature.

Carnegie Library.—In addition to the number of books which are being added to the shelves of the library by the enterprise of the librarians, quite a number of recent additions have been given by private donors, in which Victoria seems to be particularly fortunate. On an average about thirty books per month become the library property in this fashion and many of them ill-long-felt wants. Miss Stewart reported this morning that about three or four hundred of new fiction will be here in the course of ten days.

Interesting Weather Conditions.—The weather chart of the Dominion forms an interesting study this morning. The high pressure which prevailed over the major portion of the Pacific during practically the whole of last week has moved eastward and is now located over the prairie districts, where splendid conditions prevail to-day. The movement caused considerable fog in the straits and about Vancouver, but during the last twenty-four hours not a single drop of rain has fallen throughout the Dominion. It is very probable from the aspect of the meteorological outlook that rain will fall in this city either this evening or to-morrow morning.

City Analyst's Report.—In view of the fact that the city health officer will probably not report on the health of the city for September till his next statement is issued at the end of the month, circumstances, having prevented the usual report going in to the last meeting of the city council, the analysis of the city for the month of September was made available. Thirteen vendors' samples were examined by City Analyst Birch. The sample of J. Rogers had the largest percentage of solids, 14.73; Sims Brothers, being next with 14.16, and Jay & Roberts third with 14.03 per cent. Since the names of the vendors have been published the per centage of solids has advanced.

W. A. S. P. C. A.—A committee meeting of this society was held at the Alexandra Club on Friday, with the president, Mr. J. A. Macdonald, in the chair. Four new members were reported. An account was given of the work done at the horse show, when the society was allowed a percentage on the sale of the tickets for boxes for one night. This resulted in the sum of \$70 being added to the society's funds, which was considered highly satisfactory. After the treasurer's report had been read, it was decided to hand over \$100 to the parent society and to assist them in the future. Plans for work at the spring and autumn shows were discussed, and the meeting adjourned till the first Friday in December.

Suitable Dresses, Cloaks, Wraps and Gowns for the Ball Room, Receptions, Etc., are Now to be Seen in Our Show Rooms

VEN if we published a large range of colored plates printed on the best enamelled paper, we would fail to give you an adequate idea of the large and well assorted stock of evening garments that are now to be seen in our showrooms. Many an interesting detail would fail to be expressed no matter how skillful the engravers and printers might be, then the fact that the garments come in such a wide range of designs, materials and colors makes an attempt to illustrate the mwell out of the question.

Reproductions of the best models that have appeared in London, Paris and New York are to be seen here and we shall be pleased to show the garments to you on your request and there is no better day to inspect them than to-day.

Men Who Have Yet Their Winter Hat to Buy Should See the Showing at Spencer's

BECAUSE it is here that you will find all the newest and best products that can be purchased without going to price extremes. We have dozens of sizes and styles to offer you, styles that will please the conservative business man and, to go to the other extreme, the young man who wants something smart and stylish will find lots of lines that will meet with his approval.

We have the Hard Felt Hats made of good fur or wool felts from \$2.50 each up to the best of the famous Stetson products.

"Scotch Fur" and fine finished Felt Hats in the newest blocks for fall and winter wear are to be had in the Fedora, Crush and Telescope shapes, and the chief colors are browns, coffee color, green mixtures, greys and fawns. Prices start as low as \$1.50 each, but better qualities are to be had if you prefer them.

It costs you nothing to see them and you have every chance of getting a better hat for the money you intend to spend for a hat. Call in to-day.

THE BEST THAT A WOMAN CAN WEAR.

ASK the woman who wears them and she will tell you that they are the very best she ever had and wouldn't be without them now. That is the usual verdict that is given by those who have had the pleasure of wearing them, and as one of our customers said this week, they are as comfortable as having your feet in a wad of eiderdown.

It was a rather strange way to express herself about one of the greatest features that a shoe can have, namely, its comfort, but she went right to the mark and did not flatter that quality one bit.

New styles and plenty of them are here, and the "Queen Quality" models are suited for every occasion—walking, outdoor, indoor, fine weather or stormy—in fact on every occasion "Queen Quality" shoes meet your demands.

Don't delay your inspection of these lines, they are just what you want to put the finishing touches to your winter outfit.

MORE THAN WORTH ALL THEY COST.

WHY NOT BE COMFORTABLE.

Flannelette Underclothing

COSTS SO LITTLE?

TO PURCHASE such clothing that will keep you warm and comfortable is real economy, even if the prices are high, but when the cost is small it certainly isn't wisdom to be without them. With soft and fleecy flannelette next to your skin, you will be warm and cozy no matter how cold and miserable the weather may be. Why not get your supply at once and enjoy the benefit of it all the winter?

FLANNELETTE NIGHT GOWNS are to be had in pink and blue stripes and are trimmed with narrow lace. All sizes for women are here. Per garment\$0.50

FLANNELETTE NIGHT GOWNS, made of a good quality of flannelette, are here in pink and white only. They are made with a tucked yoke of self and are trimmed with embroidery insertion. All sizes up to the out sizes. Price per garment.....\$1.25

WOMEN'S SHORT UNDERSKIRTS, made of a soft and good flannelette. These garments are finished with a frill of self and are edged with lace. A fine value for\$0.50

WOMEN'S SHORT UNDERSKIRTS are to be had in pink or white flannelette of excellent quality. They are neatly finished with an edging of embroidery and are a bargain at\$0.75

CHEMISES, made of a good flannelette, are here in the slip-over style and are neatly finished with embroidery. Plain but good. Per garment.....\$0.50

MEN WILL WELCOME THIS

News of Winter Gloves

Our Three Big Windows devoted to a display of the New Fall Hats. Come and pick out a shape you like. J. N. Harvey's Red Arrow Stores, 614 Yates street.

Barbers Closing By-law.—A motion for the introduction of a by-law to compel the closing of barber's stores on Sundays will be submitted to the city council this evening.

Manx Society.—It is proposed to form a society of natives of the Isle of Man. The residents of the city who claim the island in the Irish sea as their birthplace are requested to meet at room 1, Labor hall, Johnson street, at 8 o'clock to-morrow evening.

Court of Revision.—There will be a meeting of the court of revision on a number of local improvement assessment by-laws on Wednesday. It is not expected there will be much opposition to the confirmation of the assessment, as advertised on October 1 in the Times.

Social Service League.—The Social Service League will hold a meeting this evening at 8 o'clock in the Unitarian hall, 1230 Government street. This league has been formed as the outcome of the sacred concerts which are being held in the Victoria theatre on Sunday evenings. It is non-sectarian and non-partisan in character. Business—election of officers; papers on the work of the league; discussion; social entertainment. An open invitation is extended to visitors.

Bible Class Rally.—The quarterly rally of the organized Bible classes in this city and district will take place on the evening of October 16 at 8 o'clock in the Congregational church, Pandora avenue, at which two banners will be given, one for the class having largest number present, and one for class having largest percentage of their members present. Rev. Dr. Scott of the Metropolitan Methodist church, will give the address of the evening. J. G. Brown and Miss Parsons have very kindly agreed to favor the meeting with solos.

Religious Census to Be Taken.—A meeting of clergymen and Sunday school superintendents of all the city churches, will be held to-night in the Y. M. C. A. building commencing at 8 o'clock, to discuss the advisability of undertaking a thorough house to house canvass in the near future. A similar campaign was conducted in Victoria some years ago, when it was found there were a very large number of residents who were not affiliated with any local church, though having been actively engaged in church work in their former places of residence. It is expected that steps will be taken at the meeting to-night to effect an organization to complete details. Rev. I. W. Williamson, general secretary of the Provincial Sunday School Association will be present and give an address on benefits to be derived from such an undertaking.

Mme. Labadie Coming.—On Thursday, November 7, Miss Harriet Labadie, whose reputation as an elocutionist and reciter is so well known as to require little additional endorsement, will appear at the Victoria theatre in aid of the Women's Auxiliary of the Provincial Royal Jubilee hospital. Mme. Labadie visited the West two years ago, spending the summer in Alaska much to the delight of the people there, who had the unusual experience of listening on several occasions to her delightful interpretations of such works as Ibsen's "Doll's House," and "The Servant in the House." Born in Michigan, of American parentage, Madame Labadie, who bears the French name of her husband, began her training at an unusually early age, and has devoted a lifetime to perfecting her art, and it is with genuine pleasure that Victorians look forward to her appearance here in so worthy a cause as that with which her name is associated on the present occasion.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, Friday, October 14, 1887.

Sir Charles Tupper was chosen this afternoon as Canada's representative on the fishery convention.

The nineteenth annual exhibition of the Spanish Agricultural Association was held yesterday. There was another successful display of fruit, produce, animals, and manufactures. S. Sandover was elected president, William Thompson, vice-president; G. A. McTavish, secretary; J. T. McMillan, treasurer. Music was furnished last night by the Queen City band and a dance was held. Dancing was kept up till a late hour.

General Caffarelli has been arrested at Paris charged with selling the decoration of the Legion of Honor. He is 58 years of age. He was Officer d'Ordinance to Napoleon III.

Messrs. Hurnett and Farron have secured Mrs. Langtry for a two nights' engagement at the Victoria early in January. The local managers are to be congratulated on their enterprise.

Fire broke out this afternoon in the Gordon hotel, near the foot of Johnson street. The building is occupied by Robert McDermott, who sublets part of the saloon premises for a restaurant. James Somers occupies another portion with a stock of furniture. The loss is serious. The building is the property of Mr. Rowland, of the Burnside Road.

CHARLES BUNTING'S FUNERAL

Took Place on Saturday Afternoon—Large Attendance.

The funeral of the late Charles R. Bunting took place on Saturday afternoon from the family residence, 435 Niagara street. Impressive services were conducted at the house and graveside by Rev. T. W. Gladstone, a large number of sorrowing friends assembling to pay their last tributes of respect to the memory of one whose many exemplary qualities had made him universally esteemed. Among those in attendance were Hon. W. Templeman and employees of the Times, with which Mr. Bunting had been connected for some years, and to which he rendered faithful service. There was a wealth of beautiful floral offerings some of which were from friends on the mainland.

The pallbearers were: W. N. Lenfesty, J. C. Brown, W. A. Smith, Leonard Acton, C. W. Newbury and B. C. Nicholas.

AN INNOVATION.

Marriage Ceremony at Eagles' Meeting on Wednesday.

A very pleasing event will take place at the Eagles' hall, Wednesday evening, during intermission in the Eagles' regular meeting, when the marriage of a prominent member of the fraternity and a well known young lady of the city, will be solemnized. This interesting function will be unique in the annals of fraternal organizations. There will be a large turnout of members, their wives and families, who will attend this open meeting in order to be present and participate in this happy event. The marriage ceremony will take place at 9 p. m. sharp.

Buffet supper will be served to the newly married couple and friends throughout the evening. Special music will be provided. A number of prominent Eagles from Seattle will honor the occasion with their presence. The business session begins one hour earlier than usual.

INDUSTRIAL SCHOOLS.

Necessity for a New Provision to Be Made for Incurable and Neglected Children.

The time is coming shortly when the city school boards of British Columbia will either take action themselves or require the government of the province to do so in the establishment of an industrial school for children, whose home surroundings are undesirable. Here they may be trained in crafts by skilled instructors and put under the discipline of a strong man. The truant officer's duties here and in other cities are becoming far from easy to carry out, as there are cases in the community, increasing as the condition of society becomes more complex, requiring the removal of the children from the influence of injurious surroundings. The situation is such that the matter must be taken up before long.

DETAILS OF DROWNING.

How A. R. Talmadge of This City Met His Death

Further particulars of the drowning at Lytton last Tuesday of A. R. Talmadge of this city, A. Collier and J. Erickson are contained in a copy of the Ashcroft Journal just received. The account says:

A. R. Talmadge, superintendent for Armstrong, Morrison & Co., A. Collier and J. Erickson, employees of the above company were drowned at Lytton on Tuesday last while attempting to cross the Fraser in a ferry.

They were making first trip with ferry at the C. N. R. bridge now being built about half a mile below Lytton. The ferry barge tipped and the men jumped to a skiff that lay along side of the ferry. The skiff upset throwing all the men into the water. Three managed to swim ashore, but the other three were drowned. One body has been recovered, but the other two have not yet been found. The ferry cable slipped loose at one end and allowed the barge to float away. It was caught five miles down stream.

MRS. PATERSON TO OPEN BAZAAR
Everything Points to Successful Event at Aged Ladies' Home.

The bazaar at the Aged Ladies' Home, McClure street, will be formally opened at 3 o'clock to-morrow afternoon by Mrs. Paterson, wife of the Lieutenant-Governor, and Sir Richard McBride will also make a short speech early in the afternoon. The function promises to be most successful, and already Mrs. Paterson and her daughters are busy with the decorations which are to transform the rooms and make them unusually attractive during the two days of the bazaar. There is little doubt that the dining-room, where tea will be served by the ladies of the Methodist church and the Reformed Episcopal church on successive days, will be one of the most popular centres of the bazaar, as here also, at the other end of the room, Mrs. Simon Leiser will vend useful and ornamental articles of sewing from her work table. Miss Gill and Miss Vaughan will sell candy, and the Misses Fraser, Munro, and Gould will make an attractive display of the plants from their supplies of potted flowers. It is hoped that all who are interested in the work of the home will give their assistance by visiting the bazaar and purchasing some little thing which will help to swell the proceeds of the two days' sale. As the committee have gone to no little pains to prepare the various tables and to place the opportunity in the way of sympathizers to give this useful assistance.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Oct. 14, 5 a. m.—A large area of high barometric pressure covers the prairie provinces and the western part of the United States, and a disturbance is developing on the Queen Charlotte Islands and northern coast of British Columbia. No rain or snowfall has been reported during the last 24 hours, and west of the Rockies temperatures are about normal, but in the prairie provinces light frosts have occurred.

Forecasts.
For 24 hours ending 5 p. m. Tuesday. Victoria and vicinity—Southerly or easterly winds, chiefly cloudy, with showers to-night or Tuesday.

PRINCE GEORGE RAMMED SCHOONER

STRUCK HER IN FOG IN SEATTLE HARBOR

And Had to Beach Her—Small
Craft's Fog Alarm Had
Got Out of Wind

In a fog which was so thick that the bow of the vessel was practically invisible from the bridge, the big G. T. P. steamer Prince George, Capt. Duncan McKenzie, struck the halibut schooner Lief E. in the Seattle harbor last night at 12:25 o'clock. After being hit the fishing boat began to take water and for several hours the George hung on to her and when she was almost submerged beached her in twenty-one feet of water off Harbor Island. The Lief E. was bound to Seattle from northern fishing grounds and the Prince George was leaving the Sound port for Victoria on her way north to Prince Rupert.

As a result of the collision the Prince George was late docking here, it being 11 o'clock before she made fast to the G. T. P. docks. Capt. McKenzie was seen by a Times man and gave a full account of the accident. "The fog hanging about Seattle was very dense," he said. "I had backed the Prince George out from the G. T. P. dock and had made the turn when I picked up the fog alarm of a nearby vessel. When I heard the whistle I signalled for full speed astern. The schooner blew several more blasts and then I heard no more. I concluded that the boat had passed and gave the George a kick again. As soon as the fishing boat was sighted by the lookout I again signalled for full speed astern.

Shock Very Slight.

"When we struck the Lief nearly all the weight had been taken off the George, and the bump was hardly felt aboard. Our bow cut into the schooner just about amidships and went in about four inches and split the side for about eighteen inches. As soon as we struck I ordered a boat lowered but the men on the schooner had dropped their dories over the side as soon as our boat was in the water. The Lief began to take water and I ordered lines to be placed around her. The schooner was, I should judge, about sixty feet in length and besides having twenty tons of fish aboard had twelve tons of pig iron as ballast. She began to settle the strain on the lines became heavy and I ordered more lines placed on her. The George took a big list under the immense weight hanging on her bow."

Schooner Beached.

Capt. McKenzie decided to return to the G. T. P. dock and it took some difficult manoeuvring before the ship could be brought around, owing to the weight on her bow, which kept her from answering her helm. The five tug Snoqualmie was summoned and was soon alongside the Prince George. She commenced to pump the Lief out, but when Capt. McKenzie saw that it would be impossible to keep her afloat, he decided to beach her. Continuing, Capt. McKenzie said: "We headed across for Harbor Island and with the Snoqualmie I worked in as close as possible. The captain of the fireboat told me he had got twelve feet and as my lead gave me twenty-one feet I decided to drop her there as I was afraid of my stern swinging on to the shallow shoal. She settled almost at once. The tide was full when I dropped her at about 4:45 o'clock."

Hard to Get Bearings.

During the manoeuvring the fog failed to lift to give the navigators any chance to get their bearings and after letting go the Lief Capt. McKenzie could not get a good departure. He heard the fog alarms on the different docks but could not distinguish them. The master of the George sent his boat that was in the water ashore to ascertain the position and the boat pulled up at the Union Oil docks. Right up the Sound the fog continued heavy and off Marstonstone Point part of the stern of the ship was enveloped in fog when looking toward the bridge. At Port Townsend the fog lifted and the George was given the full speed signal.

Out of Wind.

Capt. McKenzie said that Capt. John

son, master of the schooner Lief, told him that his hand fog alarm had run out of wind. When the alarm stopped it led the skipper of the George to believe that the craft had passed clear. The stop of the alarm was responsible for the accident.

As the Lief is lying in shallow water it will not be a difficult matter to salvage her.

The Prince George got away for the north at noon to-day. Except for a few scratches on her plates near the bow she bore few signs of the accident. The passengers who joined the boat here were: C. P. Newcomb, Miss Frances T. Bayley, C. Jones, P. Naylor and Mr. and Mrs. Ritchie.

NOTHING BUT MUSH FOR TWENTY DAYS

Crews of Ship McLaurin and
Barque Olympic and Can-
nery Hands Nearly Starved

San Francisco, Oct. 14.—With their crews and hundreds of cannery hands aboard nearly at the point of starvation, two beleaguered salmon packets, the barque Olympic and the ship McLaurin, were towed into port from Santa Cruz, whither they had drifted after a ten days' effort to beat into port from the Farallons.

The ships were 40 days out from Alaskan cannery ports and rough weather kept the passengers below decks most of the time. A steady diet of "mush, mush, mush," according to the crew for twenty days after other provisions were exhausted was responsible for several of the crew being carried ashore in apparently the first stages of beri-beri.

Captain Henry Meyers, of the McLaurin, died of heart failure at Santa Cruz.

The ships were 40 days out from Alaskan cannery ports and rough weather kept the passengers below decks most of the time. A steady diet of "mush, mush, mush," according to the crew for twenty days after other provisions were exhausted was responsible for several of the crew being carried ashore in apparently the first stages of beri-beri.

To-morrow morning the C. P. R. steamer Princess May, Capt. McLeod, will arrive in port from Skagway and Prince Rupert. She is expected in Vancouver to-day.

STEAM TRAWLERS HAVE REACHED PORT

TRIUMPH AND CANADA
END LONG VOYAGE

Former Arrived Saturday Night
and Latter This Morning—
Grimsby Fishermen Aboard

Within 40 hours of one another the two steam trawlers, Triumph, Captain Starkey, and Canada, Captain Evans, for the B. C. Fisheries, Ltd., arrived in port from Grimsby, Eng. The former, which is nearly double the size of the Canada, was 90 days out, while the smaller vessel took four days longer to complete the 15,000-mile voyage. For part of the passage the vessels were in company with each other, the Triumph overhauling the Canada at Montevideo. Around to Callao the trawlers were well together, but as the Triumph had larger bunker space she did not have to call at Acapulco and steamed into port about 40 hours ahead of the smaller ship. The Triumph arrived on Saturday night and the Canada this morning.

Both vessels reported practically the same weather throughout the voyage. The Canada was the first to get away from Grimsby, leaving the renowned English fishing port three days ahead of the Triumph. Right down the Atlantic the weather was fine, and only an occasional gale of wind was encountered. In the Straits of Magellan the weather was very cold, there being plenty of snow on the shores. When passing out into the Pacific the trawlers got their first taste of bad weather. A strong westerly gale was howling and a terrible sea running. The huge waves tossed the two little craft about like chips of wood. On the Triumph the first locker amidships was flooded and 20 tons of coal were lifted overboard. All hands were set to hauling out the locker, and it required four hours to complete the arduous task.

Coming up the Pacific the weather on the whole was good and none of the hands this morning had any reason to complain about the weather which fell to their lot during the trip. The Triumph made calls at St. Vincent, Montevideo, Valparaiso and Callao, while the Canada made an additional stop at Acapulco for coal, as she was unable to get on sufficient at Callao last year for the long stretch to Victoria.

Superstitions Smashed.

Each ship set aside one old superstition belief of seamen during the trip. The Triumph sailed from Grimsby on July 13 with a crew of 13, yet nothing uneventful occurred. At one time a seaman would not put to sea on a Friday, but it fell to the lot of Capt. Evans to take the Canada out of Grimsby on a Friday, out of St. Vincent on a Friday, and also from Montevideo on a Friday. The old superstitions beliefs of the seadogs are gradually being discredited and the number 13 and the day Friday are considered the same as any other.

The two trawlers are of different types. The Triumph which is only five years old shows what a great advancement the Grimsby fishermen have made in the building of a trawler. The Canada was built 26 years ago at Beverly and is a distinct type from the Triumph. The latter is 126 tons and measured 124 feet, while the Canada, which is exactly 100 feet, is but 66 tons. The Triumph is a splendid craft and should prove a most suitable vessel for trawling in British Columbia waters. While fishing from Grimsby she operated in the North Sea fleet and also went to the shores of Iceland and Greenland. The Canada has always fished with the North Sea trawlers.

Grimsby Fishermen.

Each trawler brought out nine typical Grimsby fishermen, who are under a two years' contract to the Doughty interests. As soon as the boats were completed their overhauling at the Victoria Machinery Depot they will be sent north to the Queen Charlotte Islands, and will commence fishing for halibut, cod and other deep sea fish. The arrival of these trawlers marks the opening of a new industry in connection with the Queen Charlotte Islands. It is the intention of the B. C. Fisheries, Ltd., to bring a number of other trawlers to this coast. The Doughty's selected the Queen Char-

ONLY ONE PRINCE BOAT NORTH AFTER OCT. 28

George to Be Withdrawn From
Service at End of Month—
Rupert to Continue

Effective on Monday, October 28, from this port the Grand Trunk Pacific will have but one steamer running north to Prince Rupert. Officials of the company have just settled on their winter schedule and the steamer Prince Rupert is to maintain a weekly service to the northern port. The Prince George is to be withdrawn for her annual overhauling, and the Prince Rupert will assume her schedule, leaving here on Monday mornings. The mid-week trip being discontinued on October 28.

The Prince George will more than likely be off the run for three months, and as soon as she has completed her overhauling she will relieve the Prince Rupert, which will have a three-months' lay up. It is not known what improvements the G. T. P. will make to its steamers this winter. Last year they were equipped with oil-burners.

The service by the Prince John to Granby Bay and Stewart is also changed. It will be a bi-monthly one commencing from Prince Rupert on November 8, and making direct connection with the boat from the south every two weeks.

On the Massey and Naden Harbor service the Prince John will leave Prince Rupert at midnight, commencing Friday, November 8, and every week thereafter. On the Skidegate, Jedway, etc., service the Prince John will leave Prince Rupert at 10 p. m. The new schedule will be effective there from Sunday, November 10, and every two weeks thereafter.

CAPT. CAMPBELL, SOPHIA'S MASTER, FALLS OVERBOARD

Word was brought south by the G. T. P. steamer Prince George, which arrived in port yesterday morning, that Capt. Campbell, master of the C. P. R. steamer Princess Sophia, had a narrow escape from serious injury at Prince Rupert early in the week.

Just as the travellers began to file across the gang plank, Captain Campbell endeavored to come ashore, but the crowd being too great about the plank, he called to a man on the water to give him a hand, and stepping onto the rail of the lower deck attempted to spring ashore.

His weight was too much and both men fell, one landing on the dock, while the captain went down between the wharf and the piles. Luckily he fell between the pile and the boat and landed on the guard rail.

Ropes were thrown him, but he waved them aside and coolly rose to his feet and lit a cigar before attempting the difficult task of working himself along the rail to an open port.

Chinese Cook Murders
SEAMAN, THEN SUICIDES

Tragedy marked the voyage of the Fooching Suey, the American barque with the Chinese name, from the Hawaiian Islands to New York. The vessel arrived at the latter port last week after a passage of 138 days.

The Chinese cook, according to the log, murdered a Chinese seaman and three days later committed suicide by jumping overboard. Preceding this tragedy, L. A. Spitzer, a young seaman of Santa Clara, Cal., died of tuberculosis and was buried at sea.

The Fooching Suey is now at New York loading for Honolulu. She is a steel barque of 961 tons and is owned in Boston. She is commanded by Capt. Willett.

From Sonoma and Nantamali the C. P. R. steamer Charnier, Capt. Brown, arrived in port yesterday morning. She will sail for the east coast again to-night.

BARRY IS STILL WORLD'S CHAMPION

DEFEATED ED. DURNAN
OF TORONTO, EASILY

Canadian Could Not Cope
With the Speed of the
Champion

London, Oct. 14.—Ernest Barry, holder of the world's sculling championship, today defeated the challenger, Eddie Durnan, of Toronto, easily by two lengths, over the Putney to Mortlake course, time being 22 minutes and 30 seconds. Keenest interest was shown in the race, water, weather and wind conditions being perfect. Barry won the toss and chose the Surrey side. He rowed thirty-four to the minute at the start, Durnan striking

same course on July 29 last was 23 minutes eight seconds, but water conditions were very different. Owing to the great difference in the age of the men Barry was regarded as a certainty by watermen. Durnan, who is a nephew of the famous Hanlon, had once previously challenged for the world's title, this being in 1907, when he was defeated by the holder, George Towns. As a preliminary to the big race to-day Cordery, of Putney, and Gobbett, of Greenwich went over the same course, the latter winning easily.

SOUTHERN LEAGUE WON FROM SCOTS

London, Oct. 14.—Sheffield United beat Liverpool by four goals to one in the first division to-day. Southern League beat Scottish League by one goal to nil.

A GOLF STORY.

Senator Bristow, of Kansas, is so tall that when he plays golf he uses clubs a foot longer than those ordinarily used, and "when he hits the ball it goes a mile—when he hits it."

Which recalls a story told on Bristow when he first fell before the temptation to play golf. He wanted to know how the game was played. "Well, you see," said his instructor, "you put the ball right here, just this way. Now see that mound over there about a mile and a half?"

RETAINS ROWING TITLE

ERNEST BARRY

World's premier sculling exponent, who defeated the challenger, Eddie Durnan, of Toronto, this afternoon in easy fashion.

the same pace and both were level as they got off. Barry quickly took a slight lead and seven minutes after the start he had increased this to two and a half lengths. Three minutes later he led by six lengths and at Chiswick was actually six lengths ahead, and still gaining. For the rest of the race Barry rowed with perfect ease and won without the least effort.

Won Easily.

The champion, had he so desired, could have cut down the time considerably, but he was never pushed. His time when he beat Arnot over the

Well, on that little mound there is a little hole, and the play is to put the ball into that hole in one stroke."

Bristow let drive with the same force that he had acquired in spitting rails in Kentucky, and the party followed the ball. When they came up to it they found, to the surprise of everyone, but the Kansas Senator, that the ball was within three inches of the hole.

"Now, what do you think of that?" exclaimed Bristow, sorrowfully. "I missed it."

The precise weight of an English ounce was fixed by Henry II., who decreed that it should weigh 60 grains of dry wheat.

MARAMA AND CANADA BOTH SEND MESSAGES

Former Expected From Aus-
tralian Early To-morrow
Morning

From two big trans-Pacific liners heading for this port wireless messages were received last night. The steamship Marama, Capt. Morley, of the Canadian-Australian fleet, reported that she would arrive at the outer docks to-morrow morning about 9 o'clock, and the Osaka Shosen Kaisha liner Canada Maru, Capt. Horl, sent a message stating that she would not dock before Friday morning. The former vessel is steaming here from Sydney, N.S.W., via Auckland, Suva and Honolulu, while the latter is coming from Hongkong and Yokohama.

The Marama got away from her last Tuesday evening and by making port to-morrow she will have completed a good run, considering the heavy weather which is now prevailing on the Pacific. The steamship has but a small passenger list, there being scarcely 100 all told. About 20 passengers will disembark at this port, the majority of whom will join the steamship Unatilla the following morning en route to San Francisco. The Marama has but 100 tons of cargo for Victoria and will only be in port a couple of hours.

When the Canada Maru was spoken last night by the operator at Estevan she failed to give any position, simply reporting that she would arrive on Friday morning. The Osaka liners are now operating on their winter schedules and will arrive here on Friday instead of Thursday hereafter. One more day is given them to make the trans-Pacific passage, owing to the fact that the winter weather is now setting in and delays may be experienced as a result. The Canada has 600 tons for Victoria and there are 88 Orientals as stevedores bound for here.

More than 3,000 tons of the capacity cargo taken by the Japanese liner Chicago Maru when she leaves port Wednesday will consist of wheat and flour. The Chicago will take 1,000 tons of wheat and 1,400 barrels of flour. She is also taking a large shipment of raw cotton and the usual shipments of machinery and miscellaneous freight. Vessels of the Osaka Shosen Kaisha carried large shipments of raw cotton from Tacoma last season for the Orient and the cotton export this year are expected to exceed last year's record. The only difficulty the exporters will experience will be in obtaining sufficient tonnage to move the heavy freight offering.

The barocyclometer, an instrument so sensitive as to detect a hurricane 500 miles away, thus enabling ships equipped with it to steer clear of storms, is to be installed by the navy department in all of the naval stations on the Atlantic coast, and perhaps on the ships of the Atlantic fleet.

The British steamer Willenden, with grain for England, left Portland yesterday.

A MOTOR-DRIVEN SHIP

The arrival of the Christian X, the first large ocean-going, motor-driven ship, at New York, says the Scientific American, marks another important step in the development of trans-Atlantic travel, an advancement of greater significance than any that has been made since a steamship first crossed the western ocean. Had the Christian X been a smaller ship of slower speed, and driven by motors of moderate power, the successful passage just accomplished would not be so full of meaning. A matter of fact, one can deny that the era of the motor-driven ocean liner has now been fairly well launched, and the question of applying the oil engine to the propulsion of the fastest and largest of trans-Atlantic liners is henceforth merely one of mechanical development; the 25-knot, 50,000-ton ship is clearly within sight.

The Christian X, which was built by Burmeister & Wain, Ltd., of Copenhagen, and is owned by the Hamburg-American Company, is a freight and passenger vessel, whose length is 370 feet, beam 53 feet, and maximum draft 24 feet, at which her displacement is 16,200 tons, and her dead weight carrying capacity 5,500 tons. She is driven by twin Diesel engines of a combined maximum indicated horse-power of 2,500.

Each engine contains eight cylinders, 20 1/2 inches in diameter, and 23 1/2 inches stroke. In each cylinder head are four valves, respectively for the air admission, fuel admission, the exhaust and for starting by compressed air. The Diesel system is ignited, on the well-known Diesel system, by the heat of compression, the air being compressed to 475 pounds and corresponding temperature of 650 deg. Cent. In starting the engines, compressed air is drawn for the purpose from two reservoirs at a pressure of 300 pounds to the square inch. The compressed air is utilized for the first three or four strokes, when the air supply is cut out and the oil supply cut in.

There are two auxiliary engines, one on the outboard side of each main engine. Each is a four-cylinder Diesel motor of 250 horse-power and each is connected to a dynamo for furnishing electric light and power, and to a four-stage air compressor, which is used for supplying air at 300 pounds to the two reservoirs used in starting the main engines. The air for atomizing the oil is further compressed to 900 pounds to the square inch.

The main engines are controlled from the starting platform by means of a lever and a wheel, the first regulating the oil supply, the second the reversing. The reversing gear and the general mechanism for operation of the valves are among the most successful features of the design. During the tests, with the engines running at full speed ahead, the port engine was changed to full speed astern in 10 seconds' time, a remarkable result in an engine of 1,260 horse-power.

That the first Atlantic crossing by a motor-driven ship of large size has been achieved with perfect success is shown by the following facts. The Christian X, with a full load aboard, left Hamburg July 23, and reached Havana August 2, having covered 4,627 miles, without a stop, at an average speed of 11.1 knots. The weather was decidedly bad from the 28th of July to the 31st of August, with winds of from 7 to 8 strength, and a sea which caused the ship to pitch and roll heavily and take much water on deck. The propellers were frequently out of the water; but the Aspinall regulator, which acts directly on the oil feed, gave excellent results, as may be judged from the fact that with revolutions of from 140 to 145, there was a gain of only three revolutions while the propellers were out of the water. The ship carries 1,000 tons of oil in her double bottom. She left Hamburg with a supply of 470 tons and reached Havana with 290 tons, having run at full speed with a fuel consumption of about 10 tons per day. The engines, being new, were run at only 135 revolutions per minute for the first few days; but this was raised to 142 revolutions. The best day's run was 329 miles, at an average of 13.3 knots per hour. It is expected that when the engines are shaken down the ship will be good for an average speed of 13 knots.

The fuel consumption for the main engines and all auxiliaries worked out at 0.34 pounds per indicated horse-power per hour. Outside of this economy in fuel consumption, the adoption of the oil motor for trans-Atlantic ships such as this presents many and great advantages. In the first place, in a ship of this size, 1,000 tons additional of freight can be carried, due to the fact that the space that would have been given up to the boiler plant is now available for cargo. Secondly, there is a reduction of 15 men in the crew, namely, six stokers, six trimmers and three oilers. The present engine room force consists of seven engineers, one stoker and one electrical engineer. The engines ran throughout the trip to Havana with great regularity and without a single stop during the whole 17 days consumed on the voyage.

An estimate of the economy in this ship over one driven by steam engines, shows that in 100 days of operation there would be a saving of about \$13,000, or say, about \$50,000 in a single year.

An orange tree will continue to bear fruit until it is 150 years old.

ANNOUNCEMENT

British Canadian Home Builders Shares at \$1.25 per share offer a high class 10 per cent investment with every probability of a steady increase in dividend and value of the shares caused by appreciation of the company's holdings consisting of improved property and high class Victoria Real Estate. We have big holdings of close-in acreage, purchased at prices which insure big profits for our Shareholders. We intend making

ALTADENA

One of our subdivisions on the Wilkinson Road, three and a half miles from Victoria, with a station of the B. C. Electric almost on the property, one of the popular residential suburbs of Victoria, and to obtain additional funds for this purpose have decided to offer 50,000 shares of our stock at \$1.25 per share. These shares may be purchased either for cash or one-third cash, balance six, twelve and eighteen months, or 10 per cent cash and 5 per cent monthly; \$62.50 cash and \$31.25 monthly purchases 500 shares. Only 50,000 shares will be sold at this price, and no allotment of more than 5000 shares will be made to any one subscriber. Allotments will be made in the order in which applications are received. In applying by mail, enclose cheque for at least 10 per cent of amount of subscription which will insure reservation.

FIRST OF WHALERS RETURN.
The whaling steamer Orion, Capt. O'Leary, first of the Canadian North Pacific Fisheries fleet to return this season, came into port early this morning. The Orion is from Sechart.

Shawnigan District

We have near Shawnigan Lake, on the E. & N. railway, 127 acres which we can sell at the very cheap price of per acre, \$45.00

Creek runs through part of this land, and it is near the new Bull "Jersey Farm." Together with this, we can sell a small farm, with good house, stables, etc.

OBITUARY RECORD

The funeral of the late Lawrence Tallan took place yesterday from the Hanna-Thomson chapel, Pandora avenue, Rev. Baugh Allan officiating. There was a large attendance of friends of the deceased man, and the floral-tributes were numerous and beautiful. The following acted as pallbearers: Messrs. Burbridge, Evans, Anderson, Darrack, Woods and Vincent.

The death occurred very suddenly Saturday at the residence of his son, 2515 Rose street, of John J. Nelson. The funeral will take place to-morrow afternoon at 2.30 from the Hanna-Thomson parlors.

A large number of friends attended the funeral of the late Mrs. Anne Louisa Tribe, which took place from the residence of Mrs. E. J. Hearn Kingsley, Foul Bay, on Friday. The deceased's favorite hymn, "For ever with the Lord," was sung at the graveside. The service was conducted by Rev. Mr. Gardiner and Rev. Mr. Nicholls. Wreaths from the following were sent, showing the high esteem in which the deceased was held: Mr. and Mrs. E. J. Hearn, Edith Leeder and Henry P. Hope, Mrs. and Miss Knappett, St. Andrew's choir, Empress hotel employees, Mrs. A. A. Davis and E. L. Harrison, Mr. and Mrs. F. Hilliger, Mr. Frank P. Trotter, Miss McGregor and Miss Moody, Mr. and Mrs. Robt. H. Brencley, Empress hotel gardeners. The following gentlemen acted as pallbearers: Mr. J. Lindsay, Mr. Nicholson, Mr. J. Richardson, Mr. Pearson.

Mrs. Tribe is survived by her husband and two sons.

The funeral of the late Mrs. Sarah McArthur will take place to-morrow morning at 8.45 from the family residence, Head street, Esquimalt, and fifteen minutes later from St. Joseph's Catholic church, Rev. Father Fisser officiating.

The funeral of the late Tokitomo Kureyeda took place yesterday afternoon from the Sands-Fulton parlors, 1515 Quadra street, a large number of the deceased's friends being present, and a great many beautiful floral wreaths covering the casket. The following acted as pallbearers: S. Momura, H. Gamaguchi, Y. Ogura, Y.

IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

If you want to produce a good work of art you have only to tell the truth. And the matter is simpler than you would suppose. For the truth you are to tell is not the truth about the object you depict, which probably neither you nor any man can ever know, but the truth about the impression it makes on you.

To find out the truth about a tree, for instance, to examine, analyze and know it through and through, is science, not art. Art is to reproduce truthfully the effect the tree makes on you.

You may make but an irregular blotch as a tree-picture which may be vastly more true, in art, than a photograph.

So in literature the point is to tell exactly what you feel, so as to awaken the same impressions in the reader. Often this is done in the fewest words. Here lies the supremacy of Wordsworth. Take those two lines: But she is in her grave, and oh, The difference to me!

How consummately these simple words depict the emotion! Science is the truth about objects. Art is the truth about yourself.

The Cash Way } Which? The Credit Way }

WHEN you ask for credit you may be entitled to it and get it—but you pay for it.

You cannot get away from that fact. The merchant who does a credit business gives a cash discount, but he must first add on his credit cost.

So that a cash discount does not count for much with the cash buyer. In fact, it is not a discount at all. Semi-ready clothes are sold for cash, and cash only. There is no addition to the cost for credit losses.

The one price—the plain price—the only price—it's sewn in the pocket by the makers. We wouldn't change it if we could, nor we couldn't if we would.

A one-price and a cash system helps us give you better value and more value than the credit-giving merchant can offer you.

Suits and Overcoats \$15 to \$35. The Price in the Pocket.

LALONDE MAY BE TRADED—

HOCKEY TRUCE PROBABLE

Coast Promoter Will Await Developments in the East—N. H. A. Does Not Want Any Salary War—Lester Patrick Holds the Whip Hand

It is just probable that Lester Patrick will effect a truce with the National Hockey Association magnates, and that the threatened war between the coast league and the eastern organization will not come to a head. The departure of Newy Lalonde from the east is a point in favor of the N. H. A. magnates, but with Patrick carrying round half a dozen options on the services of a score of star players, it will be seen that the N. H. A. is not at all anxious that the coast promoter should be ruffled.

George Kennedy realizes what a drawing card Newy Lalonde will be in Montreal at the head of the Canadian hockey team, and also leading the Irish-Canadians in the Big Four

HOCKEY COMMISSION

RULES AS PLANNED

Lester Patrick Tells of Constitution Under Which World's Title Will Be Battled For

Here are a few statements Lester Patrick, the coast hockey magnate, made while en route east:

THAT No-contract jumpers will play in the British Columbia Hockey League.

Coast teams, of a necessity, are compelled just now to depend upon the east and middle west for players.

If a Hockey commission is formed it should consist of an eastern, western and middle west representative, the latter to act as chairman and be chosen in Winnipeg.

Only reputable and practical hockey men should be considered eligible for the commission.

Any change desired by players could only be effected by a trade or purchase outright.

A world series should be played every year.

Such series to consist of best four out of seven games.

These games should alternate, to be played in the east one season and in the west the following year, or go to the highest bidder.

All proceeds from world series games to be under the direct supervision of the commission.

Players' share of world series to come out of first four games.

After rink management have been protected financially if there should be a money balance, it should go to charity.

Challengers for world honors would first have to qualify by defeating one of the major league champion teams.

BREAKERS LOOM UP IN EASTERN RUGBY

DISRUPTION OF COLLEGE UNION IS THREATENED

Ottawa College Allege Unfair Treatment—Billy Mallett Breaks His Leg.

All is not serene in Eastern Canada Rugby. Ottawa College have threatened to resign, because of the action of the league in deciding a protest against them, while in the Interprovincial Union, a protest game is also pending. Disputes over the scores of the games, and the rowdy actions of the spectators, account for this state of affairs.

Varsity, if the Blue and White keep up their present gall, will have little difficulty in winning the intercollegiate honors, though McGill promises to afford some contention. Ottawa College, weakened by injuries and disheartened by the action of the league in giving the protested game to Queen's were unable to stop the Dominion Rugby champions at Ottawa on Saturday. The latter fourteen won with ease 30 to 11, having it over the Ottawa team in every department. McGill beat Queen's 15 to 4 at Montreal, staying in the running for the intercollegiate title.

Big Four Outlook.

Though Ottawa did not play in the Interprovincial, the Capital City fourteen look to be the one best bet for the Big Four honors. Hamilton won from the Argonauts in Toronto on Saturday, but at a terrific cost. Billy Mallett, the wonderful punter of the Ambitious City aggregation, was carried off the field with a broken leg, and will be out of the game for the balance of the season. Tigers can hardly hope to win without their star half back, Argos, while fairly strong, lack the strength behind the line, that featured the play of the oarsmen a year ago. Coach Galvin, of Ottawa, has built up a wonderful team, the majority of whom are boys in their teens.

In the Ontario Rugby Union it would appear as if the Hamilton Alerts will carry off the championship for the second year in succession. They defeated Parkdale 26 to 7 on Saturday, and have yet to meet defeat.

LITTLE BITS OF SPORT GOSSIP

A six-team basketball league is being organized by the members of the Victoria West Athletic Club. A meeting will be held to-night to select the teams and arrange a schedule.

For the purpose of going into the present Rugby mixup, a meeting of J. B. A. A. Rugby squad will be held Tuesday evening at the clubhouse.

Upon the receipt of three round-trip tickets from Calgary, Manager Morris Condon has arranged for Joe Bayley to leave Friday for Calgary for his bout with Pat Brown at Calgary.

Tommy Burns thought at first that he would be able to make Bayley fight at terms which gave every advantage to the promoters. Manager Condon soon made the former world's champion climb down.

In Dublin, Kerr, whom Manager Lester Patrick has signed for the Victoria professional hockey club this winter, the Senators are securing one of the most finished players that ever handled a stick.

Pat Brown, whom Joe Bayley fights on Thanksgiving Day, has a grand record, including a decision over Billy Allen. Bayley is expected to win by the K. O. route.

It looks as if Dai Thomas and his Welsh Rugby players will carry off the Victoria title. The Law Students, however, will give them a strong argument for the championship.

Benny Erb, of Victoria, was a star in Saturday's game between the Australians and Stanford University, which was won by the former team 6 to 0. The open work of the Australians greatly impressed the spectators.

Tom Richards, of the touring Australian Rugby team, is known as the best forward in the world. He starred in Saturday's contest against Stanford University.

Cyclops Scott, Joe Bayley's sparring partner, will probably appear in one of the preliminary bouts at Calgary, on the date that Bayley fights Pat Brown.

Crookall, the Vancouver amateur, will probably be seen with Con. Jones's twelve next summer. His speed makes him another Fitzgerald.

BREAK CASH RECORDS.

Profits This Year Exceed Those of Last—Sox Get a Larger Cut.

Boston, Oct. 14.—The profits this year will be greater than before, the Red Sox, if they win, receiving \$4,024.68 each. The Giants, should they win, will get \$3,849.61 each. The discrepancy is explained by the fact that twenty-three Giants will divide the proceeds, whereas only twenty-two Red Sox players are eligible to share in the award.

The same is true of the losers' end, which to the Red Sox will mean \$2,683.12 and to the New Yorks \$2,568.46 each.

These figures are final for the series, as the players will share in no more games, yesterday's contest in New York, the fourth in the series, being the last in which they are entitled to participate in the proceeds.

OUR FUR DEPARTMENT

Is Fast Becoming Popular With the Victoria Women

Have you visited the Fur department on the second floor of our new store? Why not do so the next time you are down town? You will be amazed at the elaborate display of Ladies' Furs that we are showing. Nearly every fur-bearing animal is represented. An important feature of this display, however, is the low prices that prevail.

Selected Genuine Whole Skin Mink, made from choice perfect skins, well matched and of best color. Lustrous Black Lynx Fur is a beautiful glistening black, long-hair texture.

We also have an unlimited stock of Marten, Ermine and Pointed Fox Fur Sets, all being of superior quality and marked at astonishingly small prices.

Silky Russian Fitch

In all the new shapes in Scarfs and Muffs. A soft brown fur resembling high-priced marten.

\$20.00 \$22.50 \$25.00 \$30.00

Rich, glossy brown, genuine Marmots at \$7.50 up.

CUPID HOLDS SWAY OVER HOCKEY STAR

The Winnipeg Tribune of last Tuesday had the following: Tommy Dunderdale will again play hockey with the Victoria, B. C., team of the Pacific Coast League. The announcement was made yesterday by Lester Patrick, who says he has Tommy's word, which is good enough for him. This definite statement sets at rest the rumors that the star forward would migrate to the east and play with the Quebec Stanley cup holders. Quebec has been after Dunderdale for some time and offered him a fat salary. It was not presumed, however, that Patrick was letting Tommy slip through his fingers without a big bid for his services, particularly as the Winnipeg boy was one of the most valuable of last season's hockey players. Then again Dame Rumor has it that Dan Cupid has been pulling the strings for Patrick with more hope of success than salary inducements.

BATTLED TO DRAW.

Barrieau and Scaler Mixed It Up, at Edmonton—Will Meet Again.

Edmonton, Alta., Oct. 14.—Before 3,600 excited fans at the Thistle rink Saturday evening Ernie Barrieau, of

Vancouver, and "Kid" Scaler, battled in the presence of the biggest crowd ever seen in this city at a fight. Referee Woody decided the contest was a draw.

For twelve rounds Barrieau outboxed Scaler for a good margin of points, repeatedly drawing prolonged applause with his superb footwork. Barrieau used his right to good advantage, landing many telling blows and upreps to advantage.

Chet McIntyre, on behalf of Barrieau, and William Wheeler, manager for Scaler, came to an agreement whereby the boys meet again here on the first Saturday in November.

REMARKED ON THE SIDE.

Last year, when McGraw's tribe were fighting tooth and nail to land the championship of the National League, it was Rube Marquard, the elongated port-sider who came to the rescue of the faltering Giants and heaved an article of ball that meant the pennant for the McGrawites. The erratic Rube has been the only successful slab artist that McGraw has been able to send against the Red Sox in the present series, and with the fate of the Giants resting upon the outcome of to-day's battle, it is just possible that the Rube will be the man who will endeavor to keep the Giants in the fight.

NEW HAMMER RECORD.

New York, Oct. 13.—Throwing the 16-pound hammer from a nine-foot circle at Cattle Park, Matt McGrath, of the Irish-American A. C., made a new world's record of 181 feet 4 inches. The former mark was 175 feet 6 3/4 inches, made by John Flanagan four years ago.

Among the other events was a two-mile match race between H. Hans Kolemattinen, of Finland, and Abel Kivatt, of the Irish-American A. C., which resulted in a dead heat.

SITUATION SERIOUS.

Typhoid Epidemic Among Coast League Ball Players.

San Francisco, Oct. 13.—With the death of William "Heinie" Heilmuller, and four other players of the Pacific Coast League confirmed to their beds, the epidemic of typhoid fever prevalent among Coast baseball teams has assumed serious proportions. Joe Gedeon and Claude Berry of San Francisco; Chas. Patterson, of Oakland, and Walter Slagle, of Los Angeles, are the stricken players. A physician attending Berry asserts that the cause may be attributed to the water in Los Angeles.

So certain are convictions of Berry's physician that he has written to the Los Angeles Board of Health recommending that a thorough investigation be made at once to prevent a further spread of the disease. From Los Angeles came the report to-day that Slagle, who had been complaining for several days, was forced to take to his bed. Heilmuller was similarly affected before going to the hospital, where he died.

GEORGE STALLINGS SIGNS WITH BOSTON

Boston, Oct. 13.—George T. Stallings, who has been selected by President Gaffney of the Hubs to manage the team next season and the four succeeding ones, is said to have a contract with the Boston club that calls for a salary of approximately \$50,000 for the five years.

Stallings is to have absolute control. That was one of the conditions under which he agreed to come to the Hub and manage affairs.

WORLD'S SERIES AVERAGES

Boston's remarkable twirling caused a drop in the Giants' batting averages, while the Red Sox gained a bit. The latter still lead in fielding. Complete figures follow:

Not Even Howard E. Coffin Could Build Such A Car As This

Everyone knows that Howard E. Coffin is the Master Automobile Designer of America. He has built more successful four-cylinder cars than has any other man. But, working alone, he is not capable of building an automobile equal to the New HUDSON "37."

A New Idea. For more than two years Mr. Coffin has been organizing this staff of engineers. There are 48 men. They have been gathered from all the automobile building nations—France, Germany, England, Belgium and Austria. They came from 47 different factories. Combined they have had a hand in building more than 200,000 cars. It is carrying out the idea of team work which is the foundation upon which all successful concerns are now built. Experts specially fitted to do certain kinds of work combined their knowledge. Therefore the HUDSON "37" represents more than that which any one man could do. Even Mr. Coffin, with his wide knowledge and recognized ability in creating new ideas, would fall short in an endeavor to build a car equal to the HUDSON "37."

Are Mistakes Probable Under Such Conditions? We fortify ourselves against error by focusing upon every detail the combined skill and experience of so many experts as we can obtain. We do not limit ourselves. Whenever a man was found who can do work better than any one else and we have need for such work, that man was induced to join this organization.

That is why there are 48 engineers in this company—the largest number employed by any automobile manufacturer in the industry, and that is why HUDSON cars go out without mistakes. That is why there has been no error in judgment. Experience is not bought at the expense of the buyer after the car is in his hands. It is paid for out of the combined experience of the men who build the car. We pay it in salaries and not in replacements. Yet many of these men are consequently interested in the success of the business. With the exception of one holder of a small amount of stock, everyone interested in this Company is actively engaged in its operation. Consequently no earnings must be made for brains that are not responsible for those earnings.

There is no large overhead—no water. That accounts, in addition to the value of brains in the engineering—in addition to the elimination of error, for the fact that in the HUDSON "37" is given a quality not obtainable in any other car and never possible under any other conditions.

The price of either the Five-Door Touring Car, the Torpedo or Roadster models is \$2,600, f. o. b. Victoria.

See the Triangle on the Radiator. Extra tire tube and cover on spare rim, \$2.00, f. o. b. Victoria.

The Blanket Nights Are Here,

A GOOD VARIETY TO CHOOSE FROM

The colder nights are blanket nights. No excuse for being uncomfortably cool in bed with blankets so lightly priced as are these offerings of ours. Blanket prices may look the same on paper, but there's a difference. Qualities cannot be shown in black and white. It's necessary to come in and examine at close range to properly see the values. Whatever else you do, get them big enough so that when you roll over in bed you can do so with an easy mind. Ours are of liberal size, and then, too, they are all wool—guaranteed kinds, are imported direct from SCOTLAND.

WE HAVE THEM FROM \$3.00 PER PAIR

CIVIC NOTICE

RE MUNICIPAL ELECTION, 1912.

The attention of persons desiring to qualify as "HOUSEHOLDERS," or "HOLDERS OF TRADE LICENSES," to vote at the Municipal Election to be held on the 2nd Thursday of January, 1913, is drawn to Section 5 of the "Municipal Elections Act," which provides that, in the case of the holder of a Trade License, or in the case of a Householder, he, or she, shall during the month of October in each year, make and cause to be delivered to the Clerk of the Municipality, a statutory Declaration made and subscribed before a Supreme or County Court Judge, Stipendiary or Police Magistrate, Commissioner for taking affidavits in the Supreme Court, Justice of the Peace, or Notary Public, in form, and to the effect of Form 1 in the schedule to the said Act, in the case of the holder of a Trade License, and of Form 2 in said schedule in the case of a householder.

"HOUSEHOLDER" shall extend to and include any person of the full age of 21 years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the Municipality from the first day of January of the current year, and who shall, unless exempted by the provision of the Act, be liable to the payment of rates (157) of Section 53 of the Municipal Act (which exempts certified efficient militiamen and persons over the age of 60 years from paying road tax), have paid directly to the Municipality all rates, taxes or assessments, which are not chargeable in land, which rates, taxes or assessments, paid shall amount to not less than two dollars, due to the Municipality for the current year, other than water rates or taxes, or license fees for dogs.

Section 3 of the said Act further provides that "No declaration shall be accepted by the Clerk of a City Municipality unless it is delivered within 48 hours after it is made."

Section 5 further provides that "No person who is not a British subject shall have his name placed upon any municipal list of voters."

Forms of declaration may be obtained and the necessary declarations made at the office of the City Assessor, 2nd floor, City Hall, Douglas Street.

VANCOUVER MAGNATE MAY

BUY VICTORIA BALL CLUB

Bob Brown Said to Have Made an Offer for the Bees' Franchise—Senators Will Bring a Nice Sum if They Are Placed Under the Hammer

That Bob Brown may sell his Vancouver franchise in the Northwestern League and buy the Victoria franchise in that organization is the substance of the latest story that is occupying the attention of local gentlemen who are supposed to be on the inside of all baseball matters. The rumor continues that Owner Brown will dispose of his Vancouver Club to Jack Gleason, of San Francisco, for \$35,000, and that he will take over the Bees for a price said to be \$10,000.

The Vancouver magnate has always had a warm spot in his heart for Victoria, and he will probably come to live in this city should he dispose of the ball club, regardless of how the local deal turns out. Mr. Brown remarked some time ago that he considered Victoria a first class baseball town and he thought the local franchise would suit him to the ground. He is understood to have offered something like \$10,000 for the franchise.

Last spring an effort was made to secure the Victoria franchise but Owner T. P. McConnell was not anxious to sell at that time.

Dennis Possible Sale. T. P. McConnell, one of the local club owners, informed the Times that there is not the slightest probability of the club changing hands. Manager Wattleit will leave for the east the first of December, and he hopes to bring back with him the signed contracts for two new infielders, an entirely new outfield, and a couple of twirlers. A backstop to replace Harry Meek will also be purchased.

Manager Wattleit has picked up a very promising semi-professional twirler in Meade of Seattle. This youngster has not yet played in organized ball, but won sixteen out of twenty games last year, averaging twelve strikeouts. The Bees manager says that he shapes up like a coming star.

SOCCER GOSSIP FROM OLD COUNTRY CENTRES

A first-class team from Britain is wanted in South Africa in 1914. \$15,000 is guaranteed for expenses.

Scotland's best, centre-half is to be found at Shawfield Park at present. That address will find McAndrew.

Harding, the Sheffield United forward, plays a more typically Scottish game than any forward in England.

Those who saw Barney play the Celtic at Parkhead will say that Leeds City must be good to have beaten them. Glasgow has the two cleverest right half-backs in the Scottish League. By name, they are James Gordon, Rangers, and Robert Wilson, Partick Thistle.

Robert Parker, Rangers' reserve centre-forward, is slowly recovering. It was a terrible shock he got when he read that club had offered \$4,000 for his transfer.

Alex. Donaldson, the Toronto's new right winger, is the only Scotsman on their present team.

Everton's present line of forwards should be worth ensuring, seeing that it cost something like \$22,500.

Liverpool met with their first defeat at Valley Parade and peculiarly enough, this is the first time they have been defeated on this venue during their long career.

Newcastle United's front rank is being constantly shuffled with the view of discovering the best goal-getters. The club is now realizing that the best soloists make the worst choir.

McLean, of Sheffield Wednesday is easily favorite for the goal-scoring record, for he was never in better form than he is to-day. What would Celtic give to have the Forfar lad now?

Jimmy Gibson, Morrison's understudy in the Raith Rovers team, came direct from the juvenile ranks to St. Mark's Park. He is a student at St. Andrews University.

The Rev. Andrew Templeton, B. D., has received a call to Lismaharrow Parish Church. The reverend gentleman will be remembered best as an old forward of the Queen's.

Millwall will soon be one of the wealthiest clubs in the country. They attract a larger "home" gate than any other Southern League club.

Tom Collins, the old Hearts back, who went to Tottenham Hotspur two seasons ago, has been chosen as captain of the White Hart Lane club for this season.

The total number of signed players of the twenty clubs which comprise the First Division in England is 569.

LAW STUDENTS SHOW GOOD FORM

WILL PROVE DANGEROUS RIVALS TO WELSH CLUB

Speed Versus Experience May Be a Coming Encounter in Barnard Cup Series

Unless surprises of an unlooked for variety upset the "dope" in the race for the Barnard cup, the finals for that trophy will be played between the Law Students and the Victoria Welsh club. Both of these clubs possess considerable class, and they are easily the best teams that have taken the field this year.

They defeated the Oak Bay fifteen 30 to 3, in a game that was never in doubt, while the Welshmen had little difficulty in beating the James Bay team. In neither case were the winners' extended, though the Law Students showed greater scoring ability than did the Welsh fifteen. Wanderers and Surveyors have yet to take the field, and if they can place strong clubs in the field, they may cause an upheaval in the league standing.

Law Students Speedy.

It looks to be a case of speed versus experience, with the Law Students are surely the original speed boys. Their attack, on Saturday, shone because of the rapidity of their offensive tactics, and with such a set of backs as the Students boast of, they will give even the strong Welsh fifteen an argument.

Fleet-footed, the Law Students scored no less than nine tries against the Oak Bay defence. Frank Gallier secured three of these. Poor kicking, however, cost the Students quite a bunch of points, they failing to convert a single touch down. The Oak Bay team was a distinct disappointment, showing very little senior form, and being powerless to stop the onrushing school.

Team work, which was the big feature of the Students play, was entirely absent, and the individual efforts of the Oaks could not match the concerted rushes of the winning aggregation.

Welsh Again Victors.

Though the James Bay rugbyists made a splendid showing at the beginning of the match against the Welsh team, they faded fast and the windup witnessed a rout, with the Welsh fifteen doing all the scoring, 13 to 3, was the final score registered, and the winners' were the better team by a wide margin.

Wonderful combination on the part of the Welsh back division, and lack of condition on the part of the Bays, tells the story of the contest. Dai Thomas starred, as usual, setting a couple of tries, which full-back Leeder neatly converted. The latter was the pick of the winners' half line, and looks a very reliable full-back.

The game demonstrated the fact that the James Bay fifteen will have to be greatly strengthened, or they will not win a game this year. McDonald, Houston and Scott, who have been transferred to the Oak Bay club, made their first appearance with the J. B. A. team.

Lineup of Teams.

Messrs. Bennett Thompson and A. D. B. Scott, handled the whistles, the teams being:

Oak Bay.—Full-back, Johnson; three-quarters, Nason, Dickson, Tuohy, Schneider; halves, Yates and A. McInnes; forwards, Sprinkling, E. McDonald, Williams, Campbell, Sweeney, Brynjolfson, R. McInnes, Heinekey.

Law Students.—Full-back, E. Steele; three-quarters, F. Gallier, M. Scott, P. Ogden, C. Marnie; halves, Morton and Shiros; forwards, Montell, Millin, H. Gillespie, McCallum, Norris, McAttee, H. Ross and Pemberton.

Welsh.—Full-back, Leeder; three-quarters, Haydn, Hill, Thomas and Wagge-Motte; halves, Bayley and Rees; forwards, James, Lomas, Headly, Lugg, Davies, Gleason, Honeychurch and Campbell.

James Bay.—Full-back, McDonald; three-quarters, Gibson, Haile, Morton and Ross; halves, Newcombe and Newitt; forwards, Brown, Day, Simpson, Straker, Tuck, B. Scott, Houston and Wilson.

Saturday's Results.

Law Students, 30; Oak Bay, 3. Victoria Welsh, 13; James Bay, 3.

VICTORIA SECURES

EASTERN AMATEUR

Crack Centre Player of Ottawa Champions Will Play With Local Seven

Carl Kendall, of Ottawa, the best scoring centre player in amateur hockey to-day, will be seen wearing the red, white and blue of the Victoria Senators on the ice this winter. Kendall accepted Patrick's terms last week and will be out here the first of next month. Along with Kerr, Dundard and Rowe, Kendall should prove of great value to the Capital City septette. Kendall is but a youngster, nineteen years of age, but his rise as a hockey star has been rapid. He has figured on the New Edinburgh seven, champions of the Eastern amateur leagues, for the past two years, and turned down several offers last year to turn professional.

VICTORIA WESTS SCORED CLEAN-UP

WON IN ALL THREE SOCCER SERIES SATURDAY

Only One Goal Was Registered Against Club—Thistles Now in the Lead by One Point

A new star has risen in the local soccer firmament, and if the Victoria Wests can maintain the stride at which they are now travelling, they will give the best eleven in the city a battle all the way to defeat them for the city soccer title. Their victory over the James Bay team, to the tune of 4 to 1 was the most impressive victory of the year. The Green Shirts had everything, while the Bays did not show the same snap and life that characterized the work of the J. B. A. eleven a week ago.

Thistles, by defeating the Sons of England, are now in the lead, by reason of their drawn game with the James Bay club, while the Navy-Esquimalt, J. B. A. and S. O. E. clubs are hovering near the bottom of the ladder. The Thistle-Sons of England match was a nip-and-tuck struggle all through. Pearson netting the winning goal with but ten minutes to go in the final period.

Bays Take Lead.

James Bay took the leadership of the second division when they defeated the Foresters 5 to 1, in a very one-sided fixture. The winners were never in danger, while the Foresters could not keep the sphere out of the danger zone. North Wards overwhelmed the Coronas, the final tally being 7 to 0. The Coronas showed promise last Saturday against the Foresters, but could not hold the Wards going down to a bad beating. Y. M. C. A. soccerites doubled the score on the tars from the Navy-Esquimalt team, while Victoria West registered its second win of the day at the expense of the Fifth Regiment eleven. The latter were shut out, while the Wests broke into the summary on six occasions. The Bays appear a strong, well-balanced aggregation, and should not be overlooked in choosing a probable winner.

Victoria West's Record.

Victoria West made it three straight when their junior representatives defeated the North Wards 3 to 0 on the latter's grounds. The totals of the day showed that the three Victoria West clubs scored a total of 13 goals, while but one goal was scored against the Green and White teams, a very creditable performance.

BROTHERHOOD HELD MASS MEETING

PROMINENT SPEAKERS
HEARD YESTERDAY

Victoria Theatre Well Filled by
Members of St. Andrew
Brotherhood

Mayor Beckwith presided at a well attended mass meeting of the St. Andrew's Brotherhood held in the theatre yesterday afternoon. The two principal speakers were G. F. Shelby, of Denver, the western secretary of the American branch of the Brotherhood, and Rev. F. H. Graham, of Nelson.

The Gospel of Manliness.

After the mayor had opened the meeting by uttering a few words of welcome to the several members of the Brotherhood and had lauded the worthy objects of the organization, G. F. Shelby commenced his address. The theme of his discourse was the gospel of manliness, and the religion of endeavor. It was a robust speech such as can be appreciated nowhere better than at a mass meeting for men. The speaker opened by showing that all through Holy Writ there appeared many questions that the Almighty had asked of men; and the first of all was, "Where Art Thou?" That was a question that God was always asking men, and would ask until time and space were no more. But the next query that He put was to Cain, "Where is Thy Brother?"

To each and every man drawing the breath of life that question is still being put, and still humanity seems to copy the insolence, the temerity of their progenitor when it answers, as he did, "Am I my brother's keeper?" The burden of responsibility for others rested upon all, from the prince in his palace to the beggar in the gutter. A man was responsible in a measure, not only for his own spiritual welfare, but for the religious and moral health of his comrades in the workshop, in the office and the home. There were many splendid men living to-day who unfortunately did not realize their responsibilities in this direction, were not facing the thing squarely. He could recall many instances in which a deep descent took the first step on a steep descent for want of a manly word of warning, lacking the grasp of a friendly and encouraging hand.

Proceeding the speaker exhorted his hearers to stand for what was right. He touched upon the nobility of a true example. The only way in which human beings could be saved from spiritual shipwreck was by manly example and precept. In this respect it behooved men members to bend every effort in the promotion of God's kingdom here upon earth, and the betterment of His Holy Church. Professor James, the great psychologist, in a brilliant article in a recent magazine had demonstrated that men neither developed their mental capacities or their spiritual powers to their fullest extent. They were content, as a general rule, to touch only upon the surface, the superficial mental crust, and leave the inward essence—often great unexplored resources—unemployed and unregarded. Just as the runner, argued Professor James, can call upon his second wind after steady application, so there were resources in most men's mental capacity that needed only hard concentration to bring them into use. Similarly in the spiritual department of man's being could immense good be wrought for the Word of God by ceaseless application and the following up of Christian ideals towards their perfect consummation.

The greatest power of all, as asserted the speaker, that man had in his possession was the potentiality of prayer. It was the "artillery of faith," and like the guns in human warfare, prepared the way for the great assault on the citadel of evil. The promises of the Almighty with regard to prayer were very generous, wonderfully magnanimous. Why could not men take God at His word?

The speaker finished his discourse on a dominant note of optimism. He encouraged all of the true faith to stand shoulder to shoulder and to fight the good fight with all their might, and to press forward to the great goal to which all were striving. Only they must remember that Jesus Christ had said, "Ye shall not see my face unless thy brother be with you."

A Matter of Efficiency.

Rev. F. H. Graham, who had a most cordial reception, said that the A. B. C. of everything was full of dulness and drudgery. It was so with the musician learning the rudiments, with the painter, and in every other walk of human activity. So in the matter of

religion. We had to begin at the beginning and work up; there was no other way. God called a man to the work as if he spoke to him alone—and it behooved him to make answer as if the appeal had been put to him alone.

The speaker averred that he spoke as the ambassador of Christ, the King. "For He is a king, and this is His kingdom; and we are His servants." When He saw the misery and sin wrought by men, retarding the consummation of another and more perfect kingdom, yet he had no fear for the Church of God, that would so triumphantly forward in spite of all. He had no fear for the Church of God, but he had fear for the Heart of Christ, wounded over and over again by the callousness, the indifference, the scorn of the humanity he had sacrificed Himself to save.

The progress of the Church upon earth was a matter of personal efficiency of each and every member of it. There was no limit to efficiency. Only those who had become efficient were fit to guide others, and it was only by ceaseless endeavor, by continual striving that they could come to "the measure of a perfect man, to the stature of the fullness of Christ."

With considerable eloquence and fervor the speaker dwelt on the littleness of man beside His Maker. He took for his example an atom, the most infinitesimal quantity of matter known to human science. There was gold in sea water; that fact was common knowledge, though the amount of gold in comparison was very tiny and he had never yet heard of any process by which it might be extracted to monetary advantage. Yet in one drop of sea water there were no less than twenty thousand atoms of gold.

At the close of Rev. Mr. Graham's address, Dean Doull, who was present, thanked the mayor in the name of all those present for his kindness in presiding and the meeting closed with the singing of a hymn.

Election of Officers.

On Saturday the election of officers of the Brotherhood was conducted amid great enthusiasm, and the following gentlemen were asked to take office for a term:

Mr. A. C. Newell, of Portland, whose address on the subject of "Our Responsibility for the Boy" on Friday afternoon aroused so much admiration, was unanimously elected first president, the appointment being followed by loud and prolonged applause. Captain Arthur P. Hyde, of Fort Flaxler, Wash., was elected secretary of the conference, his appointment being equally popular; while the following form the executive committee: Messrs. C. M. Lovsted, Spokane, convenor; G. B. Bowie, Vancouver; G. Ward Kemp, Seattle; Fred H. Irvine, Nelson; A. E. Skey, Kamloops; G. E. Greene, Victoria; W. C. Messias, Butte, Montana, with the president and secretary, ex-officio members.

It was decided to hold the next conference in Spokane.

Letters for publication in Daily Times must be received before 10 a. m. When received after that hour they will go over until next day.

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

VICTORIA'S NEEDS.

To the Editor:—In my opinion Mayor Beckwith's interference with Mr. Barum is not the only stupid thing he has done this year, and it is to be hoped that the city council will not compel the citizens to make any more expenditures than are really necessary, and if the aldermen have no power to enforce the ratepayers to pay Mr. Beckwith's law costs as a private citizen, they should not attempt to grant any such moneys for such purposes.

Mr. McDiarmid may probably go without his fee for his wonderful defence of this case or look to Mr. Beckwith, his client. How much is Mr. McDiarmid to get from the city pile this year? The payroll would indicate that the city had a city solicitor.

At any rate, the government has set a bound beyond which aldermen and not waste the ratepayers' money, and collectively liable personally if they make illegal grants of city money.

Mr. Beckwith has succeeded in securing for himself a salary of \$4,000 from the city treasury, or twice as much as any mayor of Victoria has ever heretofore received, and what has the city received in return for this \$4,000? Is it not a fact that the cost of managing Victoria is nearly as great as that of managing Toronto, which is a city a dozen times as large as Victoria?

The cost per person of city government in Victoria is unpardonable. What have we got in return for a yearly municipal tax or levy of nearly two million dollars? Is there not a feeling that something must happen soon, something that will make a difference, and without delay is a mayor, something it has not had for years. The prospective mayor should not be a hireling, a figurehead, a dub, a petty politician or a manipulator, but a man who will inspire confidence, who has ability, energy and character. Who at present at the city hall knows its financial situation, what services are costing, and what they should cost, and what are necessary? Are there not unnecessary members on the payroll (salary)? Are there not men worth less than half what they are drawing? Does the mayor know what the services of each man on the city salary list who is receiving over \$100 per month are worth? Would a good business manager or mayor know? Truly what Victoria needs most is a mayor who is a mayor.

PROF. BONG PUBLICO.

WIDTH OF STREETS IN SUBDIVISIONS

Can a Municipal Council Insist
on 66 Feet When New Plans
Are Submitted?

The old problem of the width of streets in new subdivisions at the time of approval of plans by the municipal authority, came up at the meeting of the Saanich municipal council on Saturday afternoon.

In the consideration of a case where the surveyors were not allowing 66 feet for the width of streets, Councilor Quick reported that in accordance with a request made to him when acting reeve, he had seen the member for the district, Hon. D. M. Eberts, K.C., and put the case up to their representative for advice.

Mr. Eberts, Mr. Quick said, had advised the council to stand out for 66-foot road allowances, as the executive could not turn the council down in insisting on standard streets, when the public works department was standing up for 66-foot roads throughout the province.

Reeve Nicholson said they would soon get a ruling on the matter, as there were three or four appeals from the council's decision to come up very shortly before the executive council.

Councillor McGregor thought that in view of the enormous expense the city was put to in the way of expropriation

ions the council should take a stand if they had the power.

Councillor Borden, while favoring the enforcement of the principle, observed that there were cases when subdivisions on old 46-foot streets were satisfactory without the council working a hardship on owners by insisting on still wider thoroughfares.

The council determined to maintain the stand for 66-foot streets, and referred back plans where 33-foot road allowances had not been made on the section lines.

Crease and Crease notified the council that they intended to appeal to the Lieut.-Governor-in-Council in the case of the subdivision plan of blocks 34 and 37, map 721, part of section 32, Victoria district, rejected by the council for insufficient width of roads.

"At the Eleventh Hour" tells of a woman who was saved at the eleventh hour. This picture as an offering is excellent. It tells the story clearly and dramatically, convinces by good acting, and shows excellent photographic portraiture. "A Trip Through Belgium" is an interesting travesty subject. "Foe to Race Suicide" is a spirited comedy. "Mary in Stargeland" is the third of the series, "What Happened to Mary." In this picture Mary, through the illness of her roommate, appears for two nights on the stage and makes good. "The Pathe Weekly" is well balanced. Its best item, perhaps, is Clarence Darrow, counsel for the defence in the McNamara trials, addressing an immense crowd, during the Labor Day parade in San Francisco.

The Empress Theatre.

The Three Italian Troubadours, who are making their first appearance at the Empress theatre this week are a trio brought from Italy by the Sullivan and Considine circuit, and like every other sent across the ocean by the European agents of the vaudeville firm, they are top-notch artists. The three sing and play the guitar and other musical instruments.

An Irish singer and humorist, Arthur Whitelaw, offers some bits of humor and melody from the Old Sod. He is a capable comedian, and brings an interesting act, not the least notable feature of which is a recitation entitled "The Top of the Morning."

For those who like a good laugh the offering of Collins and Hart will prove welcome. Those two clever fellows were the originators of the burlesque strong man act, and they are also capable gymnasts.

Madame Beesee and her cockatoos give an act that specially pleases the younger element, and is of no small interest to the older folk.

The Dancing Madsens, a boy and girl who rank high among the hard-shoe dancers of the vaudeville stage, offer the fifth number on this week's bill. They costume their number well, and present some novel steps in an excellent dancing act.

A feature of this week's bill, in addition

FOR BALD HEADS

A Treatment That Costs Nothing If It Fails.

We want you to try three large bottles of Rexall "93" Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy, and it should indisputably demonstrate that when we say that Rexall "93" Hair Tonic will retard baldness, overcome scalp and hair ailments, and if any human agency can accomplish this result, it may also be relied upon to promote a new growth of hair.

Remember we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done for thousands of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store—D. E. Campbell.

tion to the twilight pictures, is the showing of series of slides depicting the important plays made in the world's series of baseball matches between the New York Giants and Chicago Red Sox. These pictures made on the polo grounds at New York and at Boston are shipped immediately upon the close of each game, and each set will be shown as soon as the mails deliver them at the Empress theatre.

WILBY WILL COME HERE.

Trans-Canada Automobileist Will Complete Trip From Halifax on Vancouver Island.

T. H. Wilby, the transcontinental motorist who is crossing Canada under the auspices of the Canadian Highway Association, will, after delivering his credentials, cross to Vancouver Island in order to complete the trip at Alberni.

Mr. Wilby has had some difficulty on the mainland because he has had to locate a new route from Ashcroft to Yale from that which he had proposed to travel. Mr. Wilby proposed to use the roadbed of the C. P. R. between these points, but with the single track it would be difficult for him to get out of the way of approaching trains, so the C. P. R. officials decided not to grant the necessary permission.

Out of 54,700 acres, the total area of Grove British, only 2,000,000 are unused for agricultural purposes.

the city from Vancouver, and is stay-
ing at the King Edward hotel.

F. W. Martin has arrived in the city
from Winnipeg, and is among the
guests at the Empress hotel.

Null Secundus Lodge No. 32, I. O.
G. T., had much pleasure in entertain-
ing their friends in the lodge room, 721
Caledonia avenue, with a social. A
splendid programme was rendered by
the following friends and members:
Sis. Mrs. Pargitor, Mr. Hardie, Bro.
Cleator, Sisters M. and N. Dick, Mr.
Soutar, Sis. Jones, Bro. Mathison, Sis.
Nesbitt and Bro. Berry. Light re-
freshments were provided and the even-
ing's entertainment was brought to a
close by the singing of the National
Anthem. The meeting was a great
success and three new members were
initiated.

The marriage was celebrated on
Thursday last of Miss Emmie H. Kent,
youngest daughter of Mr. and Mrs. W.
H. Kent, and Mr. Robert William
Whaley, of the B. C. Telephone Com-
pany. Very Rev. Dean Doull officiat-
ing. The bride entered the church on
the arm of her father, who gave her
away. She was attired in a beautiful
gown of white broadcloth with trim-
mings of white satin, with which she
wore a large picture hat, carrying a
bouquet of bridal roses. She was at-
tended by her sister, Mrs. F. Dobby
Wright, as matron of honor, gowning in
purple velvet with a bouquet of roses,
while Miss Gertrude Gordon, gowning in
white, with a bouquet of pink roses,
acted as bridesmaid. Mr. Henry Kent
supported the groom. After the cere-
mony the party left the church to the
strains of the wedding march. A wed-
ding breakfast was served at the home
of the bride's parents, her mother be-
ing assisted by her sister, Mrs. J. F.
Salloway, whilst Miss Salloway ren-
dered several musical selections. The
happy couple left for Vancouver and
the Sound cities, the bride travelling
in a blue costume with hat to match.
The groom's gift to the bride was a
monogram watch with a long chain, to
the matron of honor and bridesmaid,
pearl brooches and, best man, a silk
umbrella.

Another girl who had found her
niche in the world's work, and even
better than that, has found her mate
awaiting her in that niche, was speak-
ing of two years in which she was do-
ing work which was unworthy of her,
among people who were uncongenial.
"Doesn't it make you sad to look
back over those wasted years?" I
foolishly asked.

"Oh no," she answered, "they weren't
wholly wasted. At least they gave me
the value of contrast."
Wise, wise girl to realize that the
high lights in any picture are made
possible by the shadows, and that the
shadows in her life were not wasted
since they made her present happiness
more wonderful by contrast.
The darkest places in our lives will
throw even the neutral tones into
cheerful contrast if we will place them
beside each other in our minds.
So look back when you are inclined
to be discouraged and see if you can-
not find a time when you had far
more reason to be sad than you have
to-day.

Of course, that may not be possible,
but since there can be only one black-
est time in each life, I think it's
ninety-nine chances to one that it will.

The Evening Chit-Chat

By Ruth Cameron

One of the favorite precepts of all
moralists is that one should compare
one's lot with that of some less fa-
vored human being instead of with that
of someone more fortunate than
one's self.

Now that is surely a most ex-
cellent precept, but sometimes I
find it very hard to follow. Don't
you?

With the un-
derstanding human in-
stinct for want-
ing what one
hasn't got, my
mind turns ob-
stinately back to the lucky lady who
has all the travel she wants, or to
my fortunate friend whose father has
recently given her a most beautiful
home completely fitted up with all the
lovely appointments that every woman
loves, instead of contemplating my un-
fortunate neighbor who has just lost
her husband, been reduced from com-
fort to poverty and been obliged to
give up her beloved country home and
live in two stuffy rooms.

Such is the perverseness of the hu-
man mind.

Now there is another way of en-
couraging one's self when one is in-
clined to be discouraged, which is
somewhat similar to this, and yet to
my mind not half so hard to follow.

And that is, when one is discour-
aged or dissatisfied to look back at
the very blackest time in one's own
life and think how much happier one
really is now than then.

A friend of mine who is having some
very strenuous years with three tur-
bulent little ones to bring up, said to
me the other day, "Sometimes when
the babies are all taking turns being
sick, and the doctor's bills are ap-
palling, and I haven't had enough
sleep for weeks, I get way down in
the blues. And then I always think
back to the time when I was working
in that miserable office and had not-
ing to look forward to except long
years of such work and a lonely old
age, and I'm so thankful I'm not there
that it makes me quite happy."

Another girl who had found her
niche in the world's work, and even
better than that, has found her mate
awaiting her in that niche, was speak-
ing of two years in which she was do-
ing work which was unworthy of her,
among people who were uncongenial.

"Doesn't it make you sad to look
back over those wasted years?" I
foolishly asked.

"Oh no," she answered, "they weren't
wholly wasted. At least they gave me
the value of contrast."

Wise, wise girl to realize that the
high lights in any picture are made
possible by the shadows, and that the
shadows in her life were not wasted
since they made her present happiness
more wonderful by contrast.

The darkest places in our lives will
throw even the neutral tones into
cheerful contrast if we will place them
beside each other in our minds.

So look back when you are inclined
to be discouraged and see if you can-
not find a time when you had far
more reason to be sad than you have
to-day.

Of course, that may not be possible,
but since there can be only one black-
est time in each life, I think it's
ninety-nine chances to one that it will.

Wise, wise girl to realize that the
high lights in any picture are made
possible by the shadows, and that the
shadows in her life were not wasted
since they made her present happiness
more wonderful by contrast.

The darkest places in our lives will
throw even the neutral tones into
cheerful contrast if we will place them
beside each other in our minds.

So look back when you are inclined
to be discouraged and see if you can-
not find a time when you had far
more reason to be sad than you have
to-day.

Of course, that may not be possible,
but since there can be only one black-
est time in each life, I think it's
ninety-nine chances to one that it will.

beside each other in our minds.

So look back when you are inclined
to be discouraged and see if you can-
not find a time when you had far
more reason to be sad than you have
to-day.

Of course, that may not be possible,
but since there can be only one black-
est time in each life, I think it's
ninety-nine chances to one that it will.

Wise, wise girl to realize that the
high lights in any picture are made
possible by the shadows, and that the
shadows in her life were not wasted
since they made her present happiness
more wonderful by contrast.

The darkest places in our lives will
throw even the neutral tones into
cheerful contrast if we will place them
beside each other in our minds.

So look back when you are inclined
to be discouraged and see if you can-
not find a time when you had far
more reason to be sad than you have
to-day.

Of course, that may not be possible,
but since there can be only one black-
est time in each life, I think it's
ninety-nine chances to one that it will.

Wise, wise girl to realize that the
high lights in any picture are made
possible by the shadows, and that the
shadows in her life were not wasted
since they made her present happiness
more wonderful by contrast.

The darkest places in our lives will
throw even the neutral tones into
cheerful contrast if we will place them
beside each other in our minds.

FARMERS MUST HAVE CHEAP MONEY

IF AGRICULTURE IS TO BE DEVELOPED

Hon. Price Ellison Describes What Is Necessary to Encourage Industry

"It is my firm conviction," says Hon. Price Ellison, "that if agriculture is to be properly developed in this province, some means must be found of supplying the farmers with cheap money. The province has several million dollars on hand and I cannot see why it should not be loaned to the farmers at low rate of interest instead of being loaned to the banks."

Mr. Ellison has just returned from Revelstoke, where he opened the fair. He has also visited a number of other fair towns this year and has been much gratified at the progress shown both in the exhibits and the attendance. "Nevertheless," says he, "we are not making much progress towards raising for ourselves the fourteen million dollars of farm produce that we now import annually. In fact I doubt if our agriculture is more than keeping pace with the growth of population in other lines, if indeed it is doing that much. Until we embark upon some extended policy of agricultural development we must be content to continue as an importer of farm products."

Irrigation Work.
With regard to the question of irrigation Mr. Ellison still adheres to his opinion that irrigation works must be profitably undertaken by the provincial government. "At Penticton and Summerland," says he, "the systems are being worked successfully by the municipalities, having been taken over from the company. This is just an example of what can be done, but municipally owned systems would hardly suit most parts of the province because the irrigation areas and the municipal areas do not coincide. Experience has shown that companies are not making a success of irrigation projects and at the same time they are charging the farmer too high a price for water."

"When I first advanced the view that irrigation should be undertaken by the province I was strongly opposed by Mr. Fulton, who was then provincial treasurer, on the ground that the rate of interest that the scheme could not be made to pay. That objection has now completely disappeared. Not only can British Columbia get all the money it wants at a low rate of interest, but it has plenty of money in the bank and might very well devote some of it to this purpose."

Not Hard to Get Settlers.
Mr. Ellison is further of the opinion that if something were done along these lines, there would be no difficulty in getting settlers to go on the irrigated lands. "A settler going on such lands," says he, "and paying a charge of two or three dollars a year to cover principal and interest, would be in better position than one who took a pre-emption on bush land and undertook to clear it himself."

"There is much more land in this province suitable for irrigation than has been generally supposed, and there is plenty of water to do it. If handled properly, agricultural settlers are only coming to us in dribs and drabs because of the greater attractions of the prairie country, but I believe this could be cured by the province going in for a system of irrigation and by lending the farmers money with which to get started. Money has been lent in this way with great success in Australia and New Zealand, and I see no reason why it should not be a success here."

ESQUIMALT COUNCIL.

Important Matters for Meeting This Evening.—The Lighting Proposal.

The Esquimalt council will have to take up a number of matters arising out of Reeve Lugin's report at the meeting this evening, the most important being the lighting question, in which special information on the scheme advocated last Tuesday will have to be considered. It is probable that the larger proposal will be curtailed, as more than sufficient for the needs of the district at present, but so arranged that the scheme may be extended when a suitable time comes.

The fact that the B. C. Electric Railway has light poles distributed extensively will greatly aid in establishing a street lighting scheme economically.

Police matters have also been referred to a committee, and it is expected the council will be able to decide upon uniforms, equipment, etc., and put the two men engaged on a regular footing in a few days. A police magistrate has to be appointed.

The question of street lines is an important one in that it affects numerous properties, and it will greatly facilitate business to have the lines given by the government engineers.

The council will also have a report on a suitable design for a seal for the corporation, which is an imperative necessity before any document can be signed, and the seal of the corporation affixed thereto.

CHINESE DIES OF WOUNDS FROM AXE

SOO QUON CHARGED TO-DAY WITH MURDER

Preliminary Hearing in Police Court on Thursday—Accused Returned to Jail

DELEGATES WILL GO TO REVELSTOKE MEETING

B. C. Union of Municipalities' Annual Convention—Local Representatives

The city is making preparations for the representation of the municipal authorities at the convention of the B. C. Union of Municipalities at Revelstoke next week.

Mayor Beckwith, Alderman Stewart, chairman of the streets committee, and City Solicitor Robertson will be the delegates from the Victoria City Council. Reeve Nicholson and Councillor Dunn for the Saanich Municipal Council, and at a committee meeting this evening at Oak Bay the delegates from that council will be appointed. Probably as Esquimalt is only just getting into shape, and has not yet been requested by H. Rose, the secretary of the union, to join them, it may not be represented. It is, however, so thoroughly a representative body of the municipalities of the province that no incorporated body in B. C. can afford to remain outside.

The annual meeting of the Conservative Association is also being held at Revelstoke next week, and many of the delegates are arranging to stay over in the interior city as delegates from the Conservative associations of their respective provincial constituencies for the political assembly. Last year's meeting of the B. C. Union was held in Victoria, and terminated in a banquet at the Y. M. C. A., at which Dr. Young appeared for the government. The Victoria convention was a great success, and many useful matters were taken up at this meeting.

In view of the sitting of the municipal commission this fall in most of the leading centres of the province, the proceedings of this convention are of unusual interest.

Y. M. C. A. TOPICS.

Swimming Pool Opened Temporarily—Religious Programme Commenced Yesterday.

The swimming pool at the Y. M. C. A. is open again to-day and will remain so until next Saturday, when the Canadian championships are to come off. After that time they will be closed again for a few days in order that the walls may receive the last coat of paint. Mr. H. F. Beall stated this morning that their only reason for allowing the bath to remain open this week was in order to allow the contestants for Saturday's championships to get in some preparation. As yet the walls are not perfectly dry, and it is only as a special concession that the opening is allowed.

The gymnasium, too, is being painted this week, and it is confidently expected that the work will be completed by Saturday next, allowing for an opening on Monday next. The only drawback to a speedier opening at present is the floor of the great room, which, after the necessary alterations, may not yet be satisfactory.

The opening of the religious work programme was carried out yesterday with complete success. About fifty men attended, when Rev. G. K. Bradshaw, of Vancouver, opened with a short and encouraging address, while immediately after the members sat down to a Fellowship tea. J. O. Dunn gave sacred vocal selections during the afternoon.

Much enthusiasm is being displayed in the boys' department of the association, where the lads are preparing for a long and varied winter programme of sports, games and classes. Unfortunately the suggestion that the boys should form a football club and become affiliates to the City Junior City League has not yet been brought to maturity. The season proper will open with a social to be held at some time next week and will mark the beginning of the winter activities in all branches of work and play.

LABOR LEGISLATION.

Conference Decides to Demand Working Week of 48 Hours for All Industries.

London, Oct. 14.—At a joint conference of the Independent Labor and Fabian Society demands were formulated for the introduction of new legislation at the next session of parliament to materially better the conditions of the British workingmen.

Among the demands of the conference is one calling for a working week of 48 hours for all industries. An appeal is also made for "self-contained homes with a low rental for every family, and a legal guarantee that no child should want for food, clothing or medical attention."

Devonian Association.—A general meeting of the Devonian Association will be held to-night at 8.15 in the Lumber Exchange building, at the corner of Broughton and Langley streets. Business of importance will be discussed at this meeting and a large attendance of members is anticipated.

CHINESE DIES OF WOUNDS FROM AXE

SOO QUON CHARGED TO-DAY WITH MURDER

Preliminary Hearing in Police Court on Thursday—Accused Returned to Jail

Lue Mock Gun, the Chinese who was murdered by another Chinese at the Cameron Mill on Saturday morning, died from his wounds in St. Joseph's hospital on Saturday night, having sustained a severe laceration on the head and a crushed skull. This morning his assailant, Soo Quon, was presented before Magistrate Jay on a charge of murder.

The proceedings to-day were short, the charge being read and interpreted to the accused by the Chinese court interpreter. The accused was then remanded until Thursday without bail. He was not allowed to plead. When the case is called on Thursday morning the prosecution will be ready with the evidence for the preliminary hearing, after which the accused will be committed for trial for murder at the next assizes.

The police court hearing will be in the nature of an investigation, as in all murder trials, for the magistrate to determine if there is sufficient evidence to put the accused on his trial. Legal assistance will be assigned him at the assizes if he is not in a position to provide for his own defence.

Saturday morning, apparently without warning, the accused went to the engine room of the Cameron mill where the deceased was employed, and taking an axe struck Lue Mock Gun on the head, opening a large gash on one side and smashing the skull on the other. He then ran to the water and waded into Victoria Arm in an attempt to drown himself. He was rescued and handed over to the police.

RUSHING WORK AT HUMPBACK RESERVOIR

Preparing for Third Report on Sooke Waterworks—Pipe on Burnside Road

The Westholme Lumber Company are making good progress in the neighborhood of Humpback, and a large amount of work is in progress from the intersection of the Sooke road by the government road to the reservoir at the height of land above Goldstream station. The right-of-way for the pipe line follows the two points of the government road, which lies at the foot of the valley, and a large amount of work on this part has been accomplished.

Around Sooke lake the clearing of bush and undergrowth for the flooded area is proceeding apace. There is also a large quantity of work done on the right-of-way between the two points of the flow line. At this end the paving of the Gorge road has been delayed by the necessity of getting the big main in, which has to be tested in order to prove its capacity before the back filling is done. Already the water commissioner has applied to the Saanich municipal council requesting that the grades shall be given on Burnside road for the by-pass of the main at that portion of the pressure line, which follows the road for some two miles.

The travelling public on the Burnside road have suffered many things from road alterations recently, chiefly due to the construction of the Saanich extension, and it is hoped to get through with the water main as quickly as possible to avoid unnecessary delay with the thoroughfare.

There is still some property to be purchased at Humpback, and one award of the arbitrators is expected this week. The right-of-way passes in a cutting through the grounds of the Goldstream school, and to mitigate inconvenience to this small structure, and its inmates this part of the work will be completed as soon as possible.

Mr. Meredith will be here this week as the third period of three months on the work will then be presented. The specifications require that 45 per cent. of the total contract shall have been completed in that period.

REAL ESTATE ACTION.

Justice Gregory is to-day hearing an action for specific performance brought by a Chinese, Bar Quong, against Thomas Cooper in connection with a real estate deal between the parties. The plaintiff purchased the piece of real estate from Mr. Cooper and then sold it to Lim Bang. He went to China expecting Lim Bang to make the next payment in due course. A friend wrote him a letter telling him there was something the matter and he hurried back from China on the next boat. On arrival here he could not get a settlement because the vendor of the property held that he had failed in his payments. A tender of the full amount owing was made and declined.

Before Bar Quong told his story this morning he was sworn through an interpreter by the burnt paper method. While the oath was being administered Mr. Justice Gregory discovered the Chinese interpreter to be setting fire to the paper and holding it as it burned. He directed that the lighting and burning should be done by the witness and not by the interpreter, so the oath was taken over again. The case is proceeding.

WILL ASK FOR ANSWER.

Dominion Glazed Cement Pipe Company Request Reply to Letter.

Two weeks having gone by since the Dominion Glazed Cement Pipe Company first wrote to the council asking for payment for pipe delivered and charges for storage, and also asking to be relieved of the balance of the contract, the Vancouver management have communicated with the city council, and a letter will be read at the meeting this evening, asking for a reply at once.

The previous letters were referred to the city engineer for a report. The company wants to be relieved from the contract for the delivery of the balance of the cement pipe which it is required under contract to supply, and which the city is under no desire apparently to purchase.

ARRANGEMENTS FOR B. C. E. R. SERVICE

Street Car Company Using Portion of Douglas Street Again

The B. C. Electric Railway traffic has been suspended for the present on Douglas street north of the Fountain in accordance with the arrangement made with the city engineering department, at the suggestion of City Engineer Rust. Outer wharf cars end their run at the Fountain. This will enable the portion of the track which has been in use during the alterations to be thrown over, and permanent work finished up without the inevitable drawback of maintaining a service during the changes of grade.

The service along Burnside road is now being maintained by cars operating on the intersection of Douglas street, taking the place of the old service along Douglas to Cloverdale, which has been out of commission for some time during the street improvements. Passengers now transfer at the Junction, and walk to the Fountain to join the outer wharf cars.

A commencement has become possible to-day with the operation of a 20-minute service on the central portion of Douglas street, which has been closed to traffic for some time. Cars will run from the intersection of Government and Yates streets to Douglas street, and along that street as far as Queen's avenue on the single track now completed, onwards from 6 a.m. this affording relief to the situation on this street.

ANOTHER DEPUTATION ON STREET SPEAKING

Claim That Aldermen Sidestep Issue by Leaving Responsibility to Chief of Police

The Trades and Labor Council are to have another attack on the street by-law this evening, and on that account the meeting of the city council has been set for 7.45 instead of the usual hour, with the intention of giving the delegates from the council twenty-five minutes to address the council concerning the clauses to which objection is taken.

What the Trades Council want is to leave the issue up to the aldermen when letters are written asking for permission to use the streets. Instead of the usual course being followed of referring such applications to the chief of police to act as the streets by-law directs. Practically they want to have the same influence over the vote of an alderman on this matter as they would have over any public question upon which they as individual ratepayers might exercise an opinion by voting against the alderman when he comes back for re-election. The city council contend that the matter of street regulation is one for the absolute and sole control of the municipal police. Even if an error is made in the too zealous discharge of the law, the police must be backed up by the city fathers. Such a case did occur last year in the Baxter prosecution, and the council decided to support the officer, even if the court awarded damages against him on behalf of an aggrieved party.

LAST NIGHT'S CONCERT.

Large Audience in Victoria Theatre Last Night—Mr. Lindridge's Address.

Another large audience attended the Sunday evening concert in the Victoria theatre yesterday and the programme of sacred music was carried out as announced to the great appreciation of those who listened.

In the short address delivered by Rev. Sidney E. Lindridge he followed up the line of thought partially developed on the previous Sunday evening. Stress was laid on the point that success, contentment and happiness in life do not consist so much in receiving as in giving something to complete the sum total of human happiness. Mr. Lindridge pointed out that the modern conception of religious life and duty, as well as service, were somewhat at variance by the conceptions normally developed in the institutions of the orthodox churches. In these the theory promulgated dealt chiefly with the necessity of the individual salvation. To accept some creed or dogma, to give intellectual consent to some formula of faith, could not go far to develop the innate religious nature of man. At its worst, such a conception of the plan of salvation was fanatical, and when this self-salvation was accompanied or inspired by motives of fear the results must in the end be baneful.

The Kingdom of Heaven had found much of its most important expression in those humanitarian and social forms of service which sprang for the most part from the life within, consistent in the giving of itself, its power and energy for the uplifting of fellow men rather than the practice of preying upon others for feeding and fattening upon what they can contribute to one's individual welfare.

The solos by H. L. Hutchison, who sang "The Lord is My Shepherd," and J. Oliver, who sang "Ora Pro Nobis," were received with great applause, both being deserving of the highest encomiums.

The Eternal Question

With Most Women

One of style. What is going to be the correct styles in dresses and gowns—this problem seems to form an ever present difficulty to the feminine mind. But whatever doubt a woman is in concerning the fashion of her gown—she should be in absolutely no doubt regarding correct footwear. The shoes Gordons carry always reflect the season's best, both in style and comfort—and can be depended on to set the fashion.

Where others have found satisfaction, you can also. If you have never worn a pair of Gordons' shoes, take advantage of the tremendous opportunities described below and buy a pair. Our expert in charge will fit you as you have never been fitted before—and for the first time you will feel that true sense of freedom coming from the knowledge that one's feet are correctly shod.

WOMEN'S LEATHER LINED BOX CALF. Velour Calf, Vici Kid and Dongola Button and Laced Boots, with good, strong, heavy soles. Regular price \$4.50. **\$3.65**
Special Sales Price
ALSO 37 PAIRS TAN CALF BLUCHERS, heavy-soled. Regular \$4.00. **\$3.65**

CONSTRUCTION OF TENTS AND SHACKS

ATTENTION IS CALLED TO EXTANT SITUATION

The Abattoir Question Again Referred to by Medical Officer—Policing of Saanich

At the meeting of the Saanich council on Saturday Councillor McGregor drew attention to the necessity for regulating building in Ward 2, the district bordering on the northern boundary of the city, and asked if the by-law recently passed regulating building did not stop the construction of tents and tent-shacks, which were in some respects a menace to the neighborhood.

Reeve Nicholson said they could not prevent the erection of tents, which, after all, were only temporary structures.

The clerk, J. R. Carmichael, said the collector (Mr. Alkman) framed the by-law, and there were no restrictions of the character mentioned by Councillor McGregor in it.

The reeve promised to take the matter up with the collector immediately. Councillor Borden thought the only way they could get at the offenders was when the structures depreciated neighboring property or became a nuisance to others.

Abattoir Wanted.

The question of an abattoir came up once again in a report from Dr. J. J. Mullin, who is acting for the medical health officer (Dr. Nelson). He reported on the state of things at the Good-acre slaughterhouse on Richmond road. He expressed the opinion, after saying it was kept in a "fairly good sanitary condition," "as good as it could be for such a place," "that the only solution of this problem will be for the city and municipality to have a general abattoir built on modern lines." No action was taken.

Road Work.

Of the extensive work of cutting down the grade on Quadra street, in which about \$6,000 has been expended, the sum of \$1,071 was spent in September, according to Supt. Pym's report.

In reply to Councillor Gale, the reeve said that while he held that office he would not allow any discrimination with regard to ward appropriations for roads and bridges, for he believed the council should always act to have in view the greatest good for the greatest number.

The reeve, who said the work was growing enormously, said he had obtained prices on road machinery in order to have data to place before the next council, so that they might make the necessary purchases early in 1913. Mussen, Ltd., of Vancouver, had quoted the following prices: Rock crusher, \$2,537; traction engine, \$2,220; hot macadam mixer, \$2,285 and \$2,388, according to capacity, and bituminous concrete, or macadam carrying cart, \$181. The matter will be taken into further consideration before the present council goes out of office.

Miscellaneous.

The municipal engineer, C. H. Topp, C. E., will be asked to give the grades of Burnside road for the Sooke pipe line.

The sum of \$100 was voted to the North and South Saanich Agricultural Society towards new buildings, the cost of which has depleted their finances.

A suggestion for exchange of lands on Seaview avenue for Capt. Parker will go to the road superintendent for

a report, H. W. R. Moore making the application for his client.

Policing of District.

Answering a question of Councillor Hill with regard to bicycle riding on the footpaths in Mount Tolmie district, the reeve said that the time was coming when the district would have to have more permanent police. He had instructed Constable Little to call in what temporary help was necessary to enforce the municipality's by-laws.

SAANICH LIGHTING GETS ATTENTION

COUNCIL FAVOR GORGE ROAD SCHEME

Reeve Nicholson Says Time is Coming When District Must Be Illuminated

An important discussion took place at the meeting of the Saanich municipal council on Saturday, when the question of contributing half the cost of lighting the road to the city park at the Gorge, in the municipality of Saanich, came under consideration.

The lesser question of the individual case led to the larger one of lighting Saanich, and the reeve and most of the councillors said that the time was ripe for the discussion of a lighting scheme, and for the inauguration of this proposal in connection with the B. C. Electric railway's anticipated entrance to the district as a vendor of light and power in accordance with its recent announcement.

The city electric light committee had recommended that if the Saanich council paid half the cost of maintenance and installation, four arc lamps should be installed on the Gorge road between Harriett road and Tullicum road. The total cost of installation is \$325, including lamps, and maintenance charges to the district municipality will not exceed \$100 per annum.

Councillor McGregor rose at once, and moved the adoption of the recommendation. Reeve Nicholson pointed out that the rate was very reasonable, and he believed that the city's offer should be accepted.

Councillor Gale, who represents an agricultural ward, No. 6, opposed the resolution. He said that it was creating a dangerous precedent to commence the lighting of the district. Their municipality was one which it was very difficult for them to administer with equal fairness to all. He felt it would become a matter of very serious criticism, and he thought the country districts would strongly protest against the work being done out of general revenue of the municipality. The cost should be met in some other way.

The reeve pointed to the coming of the B. C. Electric railway into the district, and said it should be possible next year to arrange with the company, particularly for arc lights at street corners, which had become dangerous with the increase in automobile traffic. Councillor McGregor thought that the proposal had been misunderstood, and said the charge for Gorge road should be placed against Ward 2 appropriations. Although the city had refused to assist in laying a sidewalk on Harriett road that was no reason why the council should refuse to co-operate regarding lighting. He was strongly in favor of a general system of lighting being introduced to aid the populous parts of the district.

The motion to accept the arrangement was then made, and carried with a large majority. Councillor Gale alone voting in the negative.

THE ADVANCE MAN

"Pomander Walk."

To the admirers of the character creations of Dickens and Thackeray, the quaint characters in Louis N. Parker's beautiful play, "Pomander Walk," will make an especial appeal. Many critics have remarked that the craftsmanship employed in the construction of "Pomander Walk" was not at all dissimilar to the well-known methods of the immortal authors alluded to. Admiral Sir Peter Antrobus, the temperamental sea-dog; Jerome Brooke-Hoskyn, Esq., the ex-butler who is masquerading as a gentleman of quality; the Rev. Stenrood, D.D., F.S.A., the antiquarian; and a number of other characters in the play took as if they might have just stepped out of the covers of one of Dickens' works. The location of the play, quaint and sequestered, in the outskirts of the great English metropolis, was just such a queer little corner of the world as Dickens delighted in the description of. The pretty conceptions of the play are of course greatly augmented by the superb manner in which it is presented by the all-English cast which the Liebler Company brought to this country two seasons ago, and which presented "Pomander Walk" at Wallace's theatre, New York, throughout the entire first season.

This superb organization is coming to Victoria almost direct from New York, and is fulfilling its third season in "Pomander Walk," and will be given at the Victoria theatre Tuesday and Wednesday, October 15 and 16, with matinee Wednesday.

Sheehan English Opera Company. The Sheehan English Opera Company which will present one of the masterpieces, "Il Trovatore," at the Victoria theatre on Thursday, October 17, is made up of a cast of stars, the most remarkable ever assembled under one banner or ever heard in English opera. Joseph F. Sheehan, heading the cast, is recognized by musical critics as

the greatest American tenor yet produced.

For nine years Joseph F. Sheehan was the leading tenor of the Henry W. Savage Opera Company of New York city, creating the leading roles and starring in such stupendous productions as "Madame Butterfly," "Parsifal" and other operas of equal prominence produced by Mr. Savage.

This season all previous efforts have been surpassed, and the greatest galaxy of stars ever heard in English opera adorn the Sheehan roster, namely, Francis J. Boyle, John L. Dickinson, William Young, Kenneth Dudley, Miss Gladys Caldwell, Miss Theresa Claremont, Miss Louise Hoeger, Miss Alma Stetler, Miss Ruth West, Miss Merth Carmen and others. In addition to Joseph F. Sheehan himself, and a chorus of sixty trained voices.

For a special twelve weeks' tour Mr. Sheehan has secured the services of Mrs. Emily Grey, famous harpist direct from Covent Garden, London, England; Miss Sibley Remus, violinist virtuoso, Paris Opera Comique, and a special grand opera orchestra under the baton of William O'Connell, one of England's foremost conductors.

When the Sheehan English Opera Company appeared in Victoria last season Mr. Sheehan was suffering with a severe cold, but not wishing to disappoint his many admirers, managed to finish his performance though forced to cancel three weeks of his following tour. After a three months' trip in Europe and mountain climbing and other healthful exercises in Switzerland, Mr. Sheehan emerges this season singing better than ever in his career. On Thursday evening, October 17, the Sheehan organization will present "Il Trovatore" at the Victoria theatre.

"The Chocolate Soldier." Oscar Straus' opera, "The Chocolate Soldier," which the Whitney Opera

Company will present at the Victoria Theatre on October 18 and 19 has already won for itself a fame that will be as lasting as that now held by its famous predecessors of the last forty years. In its wide popular appeal this gem of Viennese composition has duplicated the profound success which attended "Arms and the Man," the famous comedy-drama by George Bernard Shaw, from which the story of "The Chocolate Soldier" is derived. It represents the high-water mark of Straus' career; his exquisite embodiment of the romantic note in Shaw's whimsical tale in dazzling, passionate love-strains have been termed wonders, but his parodies of these same delicious melodies into movements teeming with ridicule and mockery, to fit the element of satire and sarcasm which Shaw has infused into the story of his Quixote hero, are nothing short of miracles. In his hands music is a language as easily understood as spoken words, and every song from his mind has been acknowledged a masterpiece. One need but to mention "My Hero," "The Little Song," "The Tale of a Coat," "Sympathy," "Never Was There Such a Lover," and others of equal beauty to prove that in the "Chocolate Soldier" Straus has written a light opera that will last for generations.

Prominent in the cast are Rena Vivienne as Nadina; Ben Berger as Mascha; Lucille Saunders as Aurelia; Charles Percell as Lieutenant Bumerli; J. Russell Powell as Massakroff; Olive Randolph as Louka; Sylvan Langlois as Colonel Kasmir Popoff; George Ogle as Stephen, and J. F. McDonough as Alexius.

Some harps have been discovered in Egyptian tombs, the strings of which in several instances were intact, and gave forth distinct sounds, after an estimated silence of three thousand years.

10,000 Miles Out of One Set of Tire Casings

The most simple facts are always the hardest to believe. The most difficult sale on record was the case where a man tried to sell five-dollar gold pieces for two-fifty.

Men must be "shown." Automobile owners want concrete proof before they invest money in tire improvements which promise relief from the puncture, the blow-out and the terrific expense.

ESSENKAY rides like air, never changes its consistency, is absolutely impervious to heat, cold, friction, moisture or pressure. Make up your mind to give ESSENKAY a fair trial before you pass judgment.

Consider what the installation of a telephone means

At this season of the year the Telephone Company receives every day a great many orders to move or install telephones. The installation of every telephone requires the co-operation of numerous departments. Copies of the order must first be written and distributed to each person involved.

One man must look up the location of the new telephone and determine how a pair of wires can be connected through from the nearest Exchange to the subscriber's telephone. Additional poles, cables or conduits may be required. Another man or men must run a pair of wires from the house to the company's pole line. Another connects the wires to the Exchange switch-board apparatus. Another sees to the delivery of the proper kind of telephone. Another connects up the telephone and does the house wiring. Another clerk sees to the proper listing of the new subscriber's name in the directory and the daily bulletin.

Lastly, information as to the installation of the new telephone, its class of service and kind of equipment, must be furnished to the departments which are to operate and maintain it.

"Esquimalt's Waterfront Park"

VIEW ROYAL

FACTS

Esquimalt Harbor is the situation. Property is located on the North side.

Slopes back at such an angle that there is a beautiful view from every point.

Land is open. Shade trees of all varieties cover it. Every quarter-acre a charming home-site.

Much coveted Gold-stream water will be supplied View Royal homes by the Esquimalt Water Works Co.

Subdivision is on the four-mile circle. This is no further away than some points in Oak Bay.

Population is being forced westward. Beyond question the next important street railway extension will be to Colwood.

When others are investing freely you owe it to yourself at least to investigate. Since VIEW ROYAL was thrown open the daily sale has been away above the average. We are expecting another record week. All we want is the opportunity to show this property. Its natural beauty from the homesite standpoint and its unquestioned advantages to the investor will do the rest.

Summer life at Esquimalt is one long sweet song. Beaches tempt one to bathing. Jumping fish invite one to piscatorial pastime. Graceful yachts and speeding launches draw one to their pleasures. Shady trees beckon us to watch the harbor's activities in lazy relaxation.

MURDER OF GAMBLER

"Bald Jack" Rose Tells of Trouble Which Culminated in Tragedy

New York, Oct. 14.—"Bald Jack" Rose, chief informer against Lieut. Becker, accused of the murder of the gambler, Rosenthal, occupied the witness stand throughout Saturday's sitting of the court. Witness told the story of the events which culminated in the murder of Rosenthal.

Rose said he had known Rosenthal for 20 years, and Becker for several years. The witness did not look at Becker as he gave his testimony, but the former police officer watched Rose intently.

"Did you ever have business relations with Becker?" he was asked. "Yes, I collected money for him."

Rose told of meeting Rosenthal and Becker in the Elks' club on a New Year's celebration. Mrs. Rosenthal was present. Becker said to Mrs. Rosenthal, according to the witness: "Now, don't worry. Herman and I have a thorough understanding. He is my friend and I am his friend, and his troubles are over."

Rose said Becker told him the details of the alleged partnership with Rosenthal.

"Becker," Rose testified, "said Herman had made a proposition to him that he go into partnership with Rosenthal in running a gambling house and had asked him to invest \$5,000 in it. I said no one ever made any money in the gambling business with Rosenthal."

Becker, however, continued the witness, did not agree and made a proposition to allow Rose to take a 25 per cent. share in the business of the proposed establishment. Becker took a \$2,500 cash mortgage on Rosenthal's property and arranged for a "dummy" to hold the mortgage. "Becker asked me," the witness went on, "if I would take charge, and I said I would."

The witness told of conversations with Becker in which the police lieutenant inquired what were the profits of the gambling house.

"I reported to him on one occasion that the house had made several thousand dollars," said Rose.

"He told me to tell Rosenthal to send him \$500. I went to see Rosenthal, and Rosenthal said he wouldn't give it because he thought he hadn't had a square deal on the mortgage. I told Becker. Becker said that just as soon as his attention was called to that place he would raid it. He told me to tell that to Rosenthal. I told Rosenthal. Rosenthal said: 'You told Becker he can't raid this place unless he gets proper evidence, and he can't get it because I know all his men and they can't get in here.'"

"So that's his attitude, is it?" Becker said when I told him this. "All right, I'll raid it. Tell Rosenthal."

"Rosenthal sent back word by me to Becker: 'Tell that fellow he'd better not start anything with me.'"

"The next day Becker told me that Commissioner Waldo had called his attention to the place and he (Becker) would have to raid it. I told Rosenthal and Rosenthal said: 'Tell Becker he can't bluff me. I don't believe Commissioner Waldo ever called his attention to my place.'"

"Several days later Becker told me that complaints were pouring in and he would have to raid the place. He told me to see Rosenthal and tell him to do him a favor."

"Tell him he has to stand for a raid," Becker said. "I did him a favor and he must do one for me. I'll raid the place and it will relieve me from worry, and in a few days he can reopen his place and everything will be all right."

"Rosenthal replied to me: 'You can tell Becker he must think I'm crazy to stand for such a thing. He might as well take a torch and burn it up. It's my place, and I'm going to handle it the way I think best.'"

"I saw Becker and told him what Rosenthal said. 'Well, I'm going to raid the place and raid it in a few days—within a week,' he said."

"I told Becker it would only cause trouble and he said: 'Don't worry about it; it won't cause me any trouble; it will only cause trouble for Rosenthal.'"

"Do you want me to tell that to Rosenthal?" I asked. "No," he answered. "I'm through with the fellow."

"A few days later Becker told me that he was going to get two men from the strong-arm squad to swear to evidence."

"That's dangerous, Charlie," I said. "No," he said. "It's all right. I'll let Rosenthal satisfy the mortgage first. I'll raid his place if it's the last thing I do."

"All right," I said. "I'm not going to be in the house when it's raided."

The house was raided. Continuing, witness gave details of the trouble which followed the raid

and the part Becker played in the murder.

"Becker told me," he said, "that he wanted Rosenthal murdered. He croaked or strangled. At his bidding I got the gunner to kill Rosenthal. I hid after the murder. I saw Becker that morning and later talked with him over the telephone. I paid the gunner \$1,000 for Becker, and told him, he said, not to worry but to lay low."

"I gave myself up and became a state witness because Becker deserted me like a dirty dog and was getting ready to throw me to the wolves."

GREATEST COAL MINER.

The United States has held first place among coal-producing countries since 1899, when it supplanted Great Britain. In 1911 the world's production was 1,395,590,000 short tons, of which the United States contributed 496,221,168 tons, or 35.1 per cent.

In 12 years from 1899 to 1911 production of the United States increased over 250 per cent.; from 1899 to 1911 Great Britain increased about 50 per cent., from 189,446,731 to 394,521,199 tons. The United States in 1911 produced almost 500,000,000 tons, or 63 per cent. more than Great Britain in 1911; Germany's production in 1899 was 92,640,500 short tons; in 1911 it was 258,222,763 tons, an increase of over 175 per cent. Combined production of Great Britain and Germany in 1911 was 553,744,958 short tons, which exceeded output of the United States by only 66,508,000 tons, or 13.2 per cent. United States, Great Britain and Germany produce more than 80 per cent. of the world's supply of coal.

SALVIA is a Preparation That Will Grow Hair Abundantly

This is an age of new discoveries. To grow hair after it has fallen out today is a reality.

SALVIA, the Great Hair Tonic and Dressing, will positively create a new growth of hair.

If you want to have a beautiful head of hair, free from dandruff, use SALVIA once a day and watch the results.

SALVIA is guaranteed to stop falling hair and restore the hair to its natural color. The greatest Hair Vigor known.

SALVIA is compounded by expert chemists.

Watch your hair if it is falling out. If you don't, you will sooner or later be bald.

SALVIA prevents baldness by fastening the hair to the roots.

Ladies will find SALVIA just the hair dressing they are looking for. It makes the hair soft and fluffy and is not sticky. A large bottle, 50c. Sold at Campbell's Drug Store.

For forty years Pat had been engaged with one firm. One day his employer called him to his office and told him they did not require his services any longer.

"Bogorra," said Pat. "If I had known this was not a steady job I would never have taken it."

Range Talks By The Housekeeper

No. 4 - Subject - More Important Features

"You may buy a 'Kootenay' range, as I did, without a Reservoir, then—Decide you want one. Well, call on the McClary dealer and have one sent up—there's a place provided for it on the 'Kootenay'. Attaching it is an easy job. No stove expert required—a screw-driver is the only tool you need. I put my Reservoir on in a jiffy."

Kootenay Steel Range has a Drop Oven Door—it makes a good shelf for holding things into the oven. The handle of the door, clamps over tight—or leaves it open a little, as you desire to cook it.

"The 'Kootenay' Warming Closet is bigger and better than ever. The 'Lift' door allows every inch of space to be used and you can depend on it keeping food nice and hot."

"The Broiler Door on the 'Kootenay' is roomy—large enough to broil a steak to perfection. You can re-heat through this door without disturbing cooking on top of range."

"The only way to fit the 'Kootenay' with an electric water equipment is to use the 'Kootenay' Range, the best you can buy, and the Price is reasonable—just about what you'd gladly pay for a perfect cooking and baking range."

"All in all you'll find the 'Kootenay' Range the best you can buy, and the Price is reasonable—just about what you'd gladly pay for a perfect cooking and baking range."

FORT STREET

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

Be on guard against accident and losses through dishonest persons. In general you will have a prosperous and happy year. If you are trusted with the affairs of others, do not allow yourself to slight them.

Those born to-day will have strong, energetic personalities, and by their courage and power will succeed in life. If untrained in youth, these admirable qualities will sink to stupid obstinacy and hasty uncontrolled temper.

Birthday Congratulations TO

October 13.
Acheson, Rev. Stuart, M. A. (Broadview, Sask.); born, Mono Mills, Ont., 1847; Presbyterian pastor of Broadview since 1904; prominent in mission and educational work.

Allan, Sir Hugh Montagu, K. B. C. V. O. (Montreal); born, Montreal, 1860; vice chairman of the Allan line of steamships for many years, but retired this year; president of the Merchants' Bank of Canada and of many companies; a patron of the arts and a keen sportsman.

Bergeron, Joseph Gedeon Horace, B. C. L. K. C. (Montreal); born, Rigaud, Que., 1854; Conservative M. P. for Beauharnois, 1879-1900; re-elected, 1904, but again defeated, 1908 and 1911; deputy speaker of House of Commons, 1891-1896.

Carson, Lieut.-Col. John (Montreal); born, Montreal, 1854; insurance manager, mining expert and soldier, having commanded Fifth Royal Highlanders; a promoter of the boy scout movement.

Connie, James (Port Arthur, Ont.); born, Sydney, Ont., 1848; served in American civil war; contractor and miner; Liberal M. P. for Algoma, 1886-1904; Liberal M. P. for Thunder Bay and Rainy river, 1904-1911, when he retired.

Gringau, Alexander Thomas (Toronto); born, Carlisle, Lancashire, Scotland, 1860; musical professor and author.

Elmsley, James Harold (Toronto); born, Toronto, 1878; officer in Canadian militia since 1908; served in South Africa with distinction.

Franchette, Achille, I. S. O. (Paris, France); born, Levis, Que., 1847; chief translator of House of Commons for thirty years, but now retired.

Hanna, Hon. William John, K. C., M. P. (Toronto); born, Adelaide, Middlesex, Ont., 1865; Conservative M. P. for West Lambton since 1902; provincial secretary of Ontario since 1905; founder of the humanizing prison farm at Guelph.

Hill, Arthur Edmond Breton, C. E. (Vancouver); born, Hillside, Cape Breton, N. S., 1846; railway and municipal engineer; designed the New Westminster water works.

Hill, William Henry (Halifax); born, Halifax, 1836; inspector of customs for Nova Scotia for many years.

Phillips, Charles Samuel John (Montreal); born, Quebec, 1844; stationer and printer; active in philanthropic work.

Racicot, Mgr. Francois Theophile Zedghe (Montreal); born, Sault au Recollet, Que., 1845; vice rector of Laval university 1895-1901; auxiliary bishop of Montreal, 1905-1912.

Reynar, Rev. Alfred Henry, M. A., LL. D. (Toronto); born, Quebec, 1849; dean of the faculty of arts of Victoria university until 1910, when he retired.

October 14.
Burnham, John Hampden, M. A., M. P. (Peterborough, Ont.); born, Peterborough, 1860; Conservative M. P. for West Peterborough since 1911; founder of the Children's Aid Society in Canada; advocate of old age pensions.

Cartwright, Conway E. (Vancouver); born, Kingston, Ont., 1854; divisional engineer of the C. P. R.

Clement, Stephen Emmett, B. A. (Brandon); born, Cookstown, Ont., 1867; ex-mayor of Brandon and prominent in civic work.

Idington, Hon. John, LL.B., K. C.

SALE TO C. N. R. ON WHARF ST. THROUGH

PREMIER'S FAILURE DISCOURAGES MANY

Cold Political Hash in Place of Announcement Causes Party Indigestion

Four days before the eight hundred faithful assembled to banquet in the drill hall, and received political hash, cold and old, in place of the promised succulent railway top-side, Mackenzie & Mann, of the Canadian Northern railway, purchased all that property on the west side of Wharf street north of Turner, Beaton & Co.'s warehouse and extending to the railway bridge. The vendors were the Yates estate and Senator Macdonald. The sale was completed at the beginning of last week, and its first negotiations were reported in the Times of October 2.

The property extends from Wharf street back to the water and includes considerable wharfage, being an accessible location for shipping entering the harbor. Most of the warehouses included in the deal are held on long or short leases and the immediate disposition of the property for building purposes by the railway company is dependent on arrangements with the tenants.

The faithful did not even learn this much from Sir Richard McBride, although the purchase of the depot site had been completed four days before the banquet. What the premier said was that he would make an announcement on November 1, but unfortunately for those who hold short options the premier omitted to mention in what year.

Intrepid political pathfinders of the party were at fault as much as the faithful rank and file. The big option holders and the little option holders on Saturday morning looked their receipts in the face and wondered if November 1 meant this year or next. With so much disappointment after such a building up of hopes the faithful were distinctly disappointed.

The dollar banquet marks the height of real estate anticipations in Victoria for many years. Financial preparations that were made for the announcement total fortunes. Seven-day options with the rights of extension were taken by some, and these had clerks waiting outside the drill hall with papers ready for signature if the promised announcement were favorable to the terms of the options. There were clerks with deeds in their pockets standing on the Menzies street sidewalk listening to the half-hearted cheers, waiting for their employers to come from the dollar banquet with instructions. A turnover of many millions hung on the announcement that did not come.

The premier's failure has been the topic wherever every kind of man congregates. Intense disappointment marks the faithful, while cynical smiles of "I told you so" spreads over the faces of those who had no confidence in the premier's pledges. The consensus of opinion is that the government press and the premier led the people to believe that an announcement of importance regarding railway matters would be made, and that he had not kept faith. Even a little Conservative weekly, referring to the matter in an article written Thursday, said: "During the course of the evening Sir Richard will make public an announcement with reference to railway terminals." They all believed it, and believed it on assurances that were received from headquarters.

Consequently there is much desolation and dismay, disappointment and hard feeling. The banquet was a one-man affair but it fell flat in spite of the warm but unconvincing that has proved to pull votes on many previous occasions. Never before was the political menu so unpalatable. Undoubtedly there is now a bad attack of political indigestion among the faithful.

GAS, SOURNESS AND INDIGESTION VANISH

As Soon as "Pape's Diapepsin" Gets in Stomach All Distress is Gone

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment Diapepsin comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvellous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.

"There's no question about it, ale strengthens one greatly."
"What makes you think so?"
"Why, I bought a barrel of it and put it in my room day before yesterday. I could hardly lift it then and I can lift it easily now."

"IRVINE PLACE"

A HOME - A GARDEN - AN INVESTMENT

Don't Let Another Week Pass Without Joining the Lucky Owners of Lots in "Irvine Place"

"Irvine Place" has been selling with great rapidity this past week, owing to the fact that real estate activity has increased and a large number of small investors have begun to realize that what we say about the value of the "Irvine Place" district as a residential district is simply the truth.

"Irvine Place" is so situated that prices of lots there are bound to increase very soon with new development under way. Close to the existing Mt. Tolmie car line, "Irvine Place" is directly in the path of the only feasible routes by which that line may be extended to the new city park at Mt. Douglas.

**We are Not Departing
From Original Prices or
Terms—You Can Still
Have an "Irvine Place"
Lot at the Same Figures
—But Don't Wait. Pick
One Now**

Anticipating the development that is certain, many people have already built handsome houses on adjacent properties. One of these houses recently completed, cost no less than \$20,000. None of them are cheap. The presence of these homes makes the property worth more now.

**We are Not Departing
From Original Prices or
Terms—You Can Still
Have an "Irvine Place"
Lot at the Same Figures
—But Don't Wait. Pick
One Now**

Fifteen minutes' walk takes you to "Irvine Place," from the end of the Mount Tolmie car line. The University and Normal schools are the same distance away. Beyond lies the splendid city park at Mount Douglas, the objective of one of the new car lines. "Irvine Place" lots are quarter acres, level, clear and rockless, with soil especially adapted to fruit raising and gardening.

Values will go higher throughout suburban Victoria this fall. New citizens are coming in hundreds, seeking homes here. Many of them will want good sites at a fair price. Buy one or two "Irvine Place" lots now and you cannot go wrong. These lots will sell at any time and you have a big margin for profit.

Financial News

FEW CHANGES IN

STOCK MARKET

Rumors of a Turko-Italian Agreement Gives Support to General List of Issues

(By Courtesy F. W. Stevenson & Co.)
New York, Oct. 14.—Considering that there was no session of the stock market from Friday last, and the Balkan news circulated between to-day and then, the London market, the lowest in history on Saturday, the expectancy was that the New York market to-day would open with a heavy feeling prevailing. Such was not the case, however, and rumors to the effect that an agreement between Turkey and Italy had been reached did much towards initiating better support. The market did not record many changes, and London wired a lull in their trading. It was said that British and European bankers were convening in conference to take steps to prevent war spreading.

The approaching holiday should doubtless tend to induce scattered realizations on the part of investors, and the market is expected to be quiet for a few days. Domestic politics are not likely to be ignored as should there be no political scares between now and election, the exception will merely prove the rule.

TRADING QUIET ON

LOCAL EXCHANGE

Portland Canals Still in Moderate Demand—Granby Smelter Weaker

Victoria, Oct. 14.—One sale was made on the local stock exchange to-day, 10,000 shares of Maricopa Oil selling at one-eighth of a cent.
This is representative of only a small amount of cash, but it manifests that interest in the issue is not yet entirely dead. Granby was weaker as anticipated a few days ago on the present European unrest, which has caused heavy liquidation of standard stocks. Portland Canals are still in moderate demand, and bids were higher this morning, lowest offers being at 4 cents.

LONDON COPPER.

London, Oct. 14.—Copper close: Spots, 274 1/2, up 1/2; 6d. sales, 500 tons. Futures, 275 1/2, up 1/2; 6d. sales, 4,700 tons.

CANADIAN BONDS.

London, Oct. 14.—Following are current quotations by Canadian government and municipal bonds: Nova Scotia, 2 1/2 per cent. debentures, 87 to 88; Calgary City, 1908-1917, 4 1/2 per cent. debentures, 90 to 92; Quebec City, 1905, 4 per cent. debentures, 90 to 100.

FINANCIAL NOTES.

A message from Duluth says all wheat offered abroad over night was accepted. Directors of Amalgamated Copper met in New York on Thursday, and a 4 per cent. dividend is anticipated.
Port William stocks of wheat, 5,815,633 bushels, increase 2,212,145 bushels; shipments of wheat, 2,845,680 bushels; on American exchange, 2,458,423 bushels. Oats, 423,132 bushels against 500,495 bushels.

WINNIPEG GRAIN.

Winnipeg, Oct. 14.—A general advance in European markets was followed this morning by a notable advance on American exchange. Locally the option market was very strong and prices opened about 1 1/2 higher. There was, however, an easy feeling towards the close.
There is a fair spot cash demand, but the export inquiry. Oats advanced slightly. Flax had a sharp decline. The European political situation is the only bullish factor on the markets, as receipts are very heavy and reserves in farmers' hands light. Receipts, 1,200 inspected; 4,000 in sight.

IMPORTANT SESSION OF CITY COUNCIL

RESOLUTION TO NAME WATER COMMISSIONER

Sewer Inquiry Committee's Report Due for Consideration This Evening

The session of the city council this evening will be of unusual importance, as there are several matters which have to be considered having an important bearing on the future of the city.

The report of the sewer committee has to be discussed, no action having been taken upon it last week, in order that the council members in the interval might have an opportunity individually of considering it.

It is generally recognized that the report is a compromise compilation, and that the way it has been drawn up is to enable the aldermen who sign it to have freedom to discuss the provisions thereof. It is not so much the present report that they are anxious shall be adopted, as the desire to give confidence to the public when the council next asks for a sewer loan in January, which must certainly be done, and that for a large amount. There is another phase which has weighed with some, and that is that if a scorching report had been submitted, it would have tended to damage Victoria in the eyes of the Dominion, as a city where municipal politics were corrupt.

The council will receive a formal application from the Provincial Royal Jubilee hospital directors for the submission of a by-law, providing for the raising of \$200,000 for a new building. There will also be a request to the council for an observatory site in Beacon Hill park, following the recent interview with a deputation from local officials of the meteorological service of the Dominion.

A resolution is to be moved by Alderman Cuthbert appointing City Engineer Rust water commissioner from November 1, the date which has been mentioned several times for the transfer from Mr. Raymur of the office he has held for a number of years. This step is in accordance with the trend of events during the last three months.

Mr. Raymur is to receive the same salary as controller as he has enjoyed for both offices. It is felt that the duties demand the whole time of one man, with the financial obligations which the city has undertaken during the last three years in new works, paving, and expropriations particularly, the cost of which is proving an enormous matter. It is not likely, however, that Mr. Rust will be able to undertake anything more than the engineering side, and a general supervision of the staff. The council will have shortly to appoint an accountant to look after the clerical side of the undertaking. So far as engineering is concerned it can only affect the Elk lake works, as the supervision of the Hooke scheme is already provided for, and an expert engaged at a high salary.

Guaranteed Hot Water Bottles

We have a line of these goods that we have no hesitation in endorsing as to quality and workmanship. They are the product of one of the best factories on this continent.

See display in our Yates street window and let us quote you prices. Fountain Syringes and Combinations also of the same manufacture.

RETURN CASE FOR RECONSIDERATION

any. It is essential that the citizens should vote at an early date a sum sufficient to cover distributing water mains, which will be laid in streets to be paved next year.

V. & S. PROPOSAL TO COME UP AGAIN

Premier Expresses His Desire to See Settlement of Problem

Another attempt is to be made at the meeting of the city council this evening to take up the Victoria & Sidney railway deal, as Mayor Beckwith is referring back for consideration once more the recommendation of the committee, which was rejected on a tie vote two weeks ago.

According to an inspired article in the Colonist of yesterday Sir Richard McBride is equally anxious with some of the aldermen to see the city close up the proposition as offered, which the Great Northern railway indicate is a maximum. Nothing can be hoped for financially better than the terms already stated.

The citizens are told that "the government looks upon the position as one for the making of the best settlement of a state which if continued will by no means conduce to the general public interest." The question then is: Is the city council to be guided by this point of view? The question should be closed up at once? The company is willing to divide between the city and province in proportionate shares the amount which the company has made in profit after paying the cost of operation, and which ought to have been paid on account of interest on the bonds guaranteed by the city and province. But the company, while refusing to pay interest charges for the years when the road was not paying, asks the city and province to release them from all obligations whatsoever, and, in other words, to be able to treat for the sale of the road should they so desire. In addition to offering this \$36,000 for the proportion of profit, the Great Northern railway is willing to release the city from five years interest at \$8,000 a year due on the bonds, or \$48,000. Thus the proposal is that the city is to sink the \$297,000 put into the road in order to receive \$81,000 out, and have no further say in the management. The Great Northern Company, however, undertakes to put the road in suitable physical condition, as by law it is compelled to do. It appears the provincial government is holding back its order as to the physical condition of the V. & S. until the proposal has been closed up. So that it looks as if the latter ruling, which rumor says would cost the operating company nearly \$100,000, is to be held back till the city has pledged itself to accept the proposal, or in other words is a club held over the heads of the negotiators to force a settlement.

Not enough has been made of the road as a valuable link in transcontinental connection with the mainland. By way of Sidney is the most natural manner of reaching the mainland by ferry, and indeed the original company was incorporated with that end in view, the establishment of ferries being a feature of the charter. Therefore it is not likely the Great Northern, or any other transcontinental railway, will willingly let slip the grip it already has on this important section of the connection with the capital city of the province. The electrification of the line is well within the possibilities of traffic, and would not interfere with the Spanish extension, which is to be made of service by the B. C. Electric Railway next year. The peninsula is bound to see great development, and from it the owners of the road will benefit when the time is ripe.
